Ages & Stages™

Playskool's Ages and Stages system takes the guesswork out of choosing the right toy at the right time for your child, by organizing all our products into easy-to-understand categories that reflect the progressive stages of child development.

Busy Discovery

Children are fascinated by objects with moving parts they can turn, click, push, spin, squeak, rattle or slide. Busy activities help children learn to manipulate objects in lots of interesting ways, and develop their fine motor skills. Toys such as **4-in-1 Busy® Center** encourage Busy Discovery and playful exploration.

Creativity & Imagination

Children need open-ended creative toys that allow them to express themselves freely. Unstructured creative play is an ideal means for preschoolers to make wonderful discoveries and build self-image through what they create. Toys such as **4-in-1 Busy® Center** give full reign to children's Creativity and Imagination, letting them experiment and explore, while helping them to develop their artistic instinct.
