LEVEL ONE activity sets are geared for **AGES 3-4**, and teach basic concepts that are the building blocks of learning. Kids learn math concepts by "adding" pictures instead of numbers, and reading concepts by repeating pictures in a certain sequence.

After children learn basic concepts, they progress to **LEVEL TWO** activity sets geared for **AGES 5-6**. Kids apply the concepts they learned in **LEVEL ONE** sets to pictures, letters and numbers, as they try simple addition, subtraction and word building.

ASSEMBLED GAME PIECE

HOW TO PLAY:

1. The first player moves his/her game piece one space. The next player moves his/her game piece one adjacent space. Players continue to take turns moving their game pieces one adjacent space.
2. When a player moves onto a space that has the same picture/word as the space another player is on, the player who moved onto the space has made a "tag." The player who made the "tag" now tries to match the "tagged" word with a rhyming word. First, the player chooses the "tagged" word on the left side of the game card. Then, he/she chooses the rhyming word on the right side of the game card.
3. If the player makes a match, Talking Alphie says "You're right" or another positive response. The player moves to a new space and collects a token. If the player does not make a match, Talking Alphie says "Oops, try again." The player must wait until his/her next turn to try to "tag" and match rhyming words.
4. The game ends when there are no more tokens to collect. Players count their piles to see who has the most tokens.
