

## Get-Ready

1. Set out the tower and the tokens.
2. Each player chooses a color and collects their tokens.
3. The player whose birthday is coming up next goes first.

## How-to-Play

Take turns dropping one token at a time into the columns in the tower.

## How-to-Win

The first player to get four in a row—up, across, or diagonally—wins!

## Now Try This!

Go for three in a row instead of four. Now try five!

When you're finished playing, just remove the red lid and store your tokens inside the tower!

Speed round! On your turn, drop a token into the tower before your opponent can count to four.
