

## Get ready

1. Choose a puzzle from one of the booklets.
2. Copy the pattern from the booklet onto the board.

**Animals!**  
Use the purple stickers to set up your puzzle. Then solve it with the clear stickers.

OR

**Numbers!**  
Use the green marker to set up your puzzle. Then solve it with the purple marker.

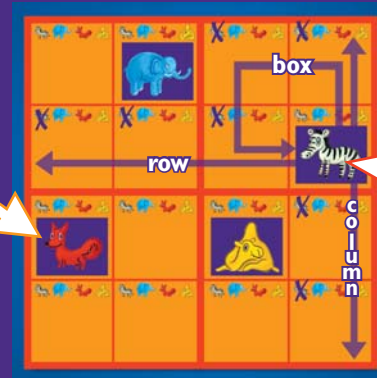

Now you're ready to solve the puzzle by filling in the missing animals or numbers. Each row, column, and box should contain only one of each animal or number. When you're finished, check your answer in the booklet.

## New to sudoku?

Start with the animal puzzles!

The purple animals help you figure out which squares to fill in next, so you shouldn't ever have to guess. Each correct answer leads to the next.

1. To get started, cross out the small zebras that appear in the same row, column, and box as the purple zebra. Do the same for the other purple animals. Remember, each animal can appear only once in a row, column, and box.

2. Use the clear stickers to fill in the empty squares where only one small animal is left.

3. For each animal you add, cross out the small picture of the animal in any empty squares in the same row, column, and box. Keep going until you've filled the board and solved the puzzle.

*The camel goes here!*

WARNING:  
CHOKING HAZARD – Small parts.  
Not for children under 3 years.
