

Welcome to Cranium® Giggle Gear™

Roaring Dinosaur

GET STARTED

1. To turn on the dinosaur head, open the pouch in the chin and remove the battery case.
2. Move the switch on the case to **HI (II)** or **LO (I)** to adjust the volume. Put the case back into the pouch, arrow-side first. The speaker holes should face up.
3. Put on your dinosaur head and wiggle or shake your head to ROAR!
4. To turn on the dinosaur feet, follow the same instructions as for the head, but move the switches on the cases to **ON (I)**.
5. Put on your dinosaur feet and STOMP! Now go and make someone giggle. Have fun!

When you've finished, take off the dinosaur head and feet. Turn the switches on the battery cases to **OFF (O)**. If you forget, the batteries will turn themselves off after a few minutes.

TROUBLESHOOTING

Are you having trouble with your Roaring Dinosaur?

- If your dinosaur head won't make sounds, make sure the switch is in the **LO (I)** or **HI (II)** position or try installing new LR44 button batteries.
- If your dinosaur feet won't make sounds, make sure the switches are in the **ON (I)** position or try installing new LR44 button batteries.
- To save battery power, make sure you turn off the head and feet when you've finished playing with them.

If you've tried these steps and are still having trouble...

- In the U.S., go to cranium.com/support or call **1-877-CRANIUM**
- Outside the U.S., go to cranium.com/worldwidesupport

We value your input and we'll do our best to help!

CHANGING THE BATTERIES

Need to change the batteries? Ask an adult to get new LR44 button batteries and follow these instructions. (LR44 batteries can usually be found in the photo and electronics sections of major retailers, pharmacies, and grocery stores.)

To replace dinosaur head or feet batteries:

Open each pouch and take out the battery case (do not disconnect wires). Using a screwdriver, remove the battery door. Insert new batteries. Replace the door and tighten screw. Put the case back into the pouch, arrow-side first.

BATTERY SAFETY

- Do not put the batteries in backwards. Positive (+) and negative (-) ends must be inserted in the correct directions following the polarity (+/-) diagram in the battery compartment.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Only batteries of the same or equivalent type as recommended are to be used.
- Do not mix old and new batteries.
- Rechargeable batteries must be removed before recharging.
- Rechargeable batteries must be recharged by an adult only.
- Batteries must be installed and removed by an adult only.
- Remove exhausted batteries and dispose of them properly.
- Do not try to recharge non-rechargeable batteries.
- The supply terminals are not to be short-circuited.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules and EMC regulations. Conforms to the requirements of EN 50088 and ICES-003/NMB-003. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

 **WARNING:**
CHOKING HAZARD—

Small parts. Not for children under 3 years.
