**Roadway Painter™\***

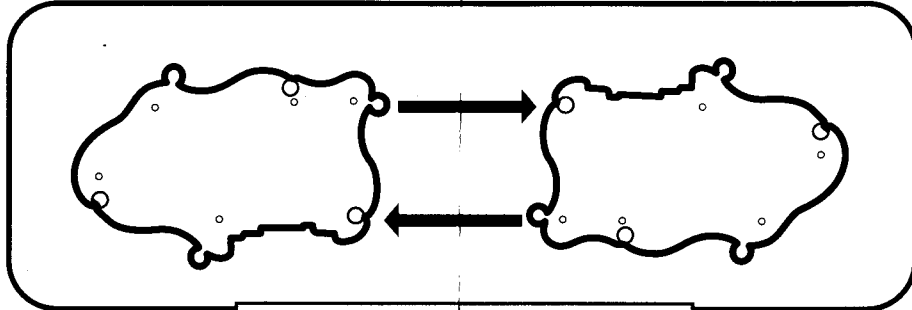

**Thank you for choosing this Bob the  
Builder™ playset!**

Includes Adventure Bob™ \*  
figure, roadway painting cart,  
road sections (2), street lamp  
and fence.

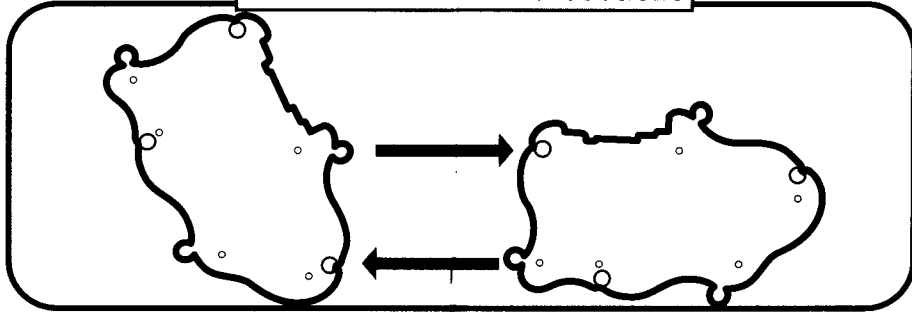

## ASSEMBLY

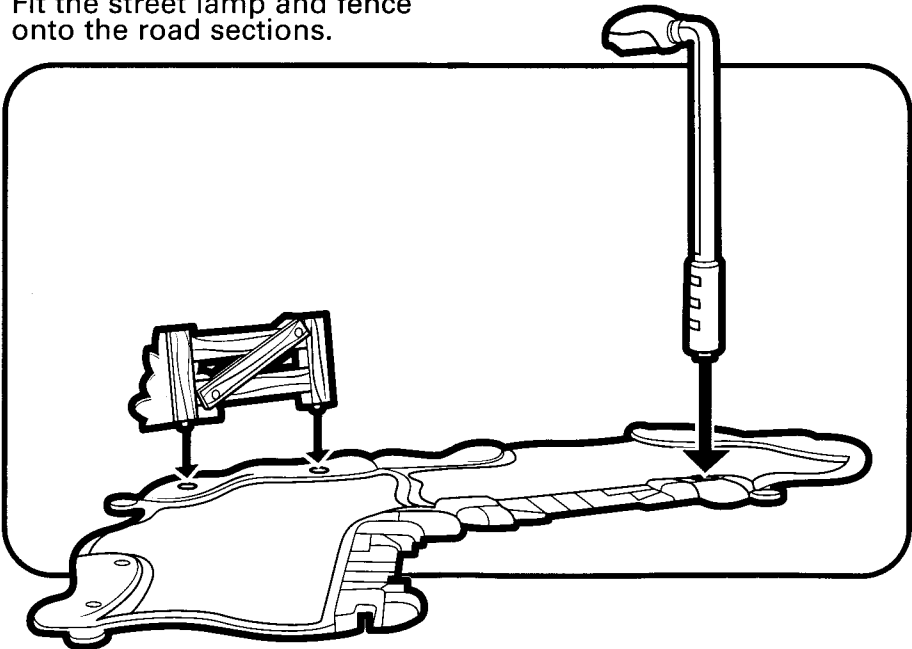

- Fit road sections together. Sections fit in different configurations, such as the examples below.

Bottom View of Road Sections

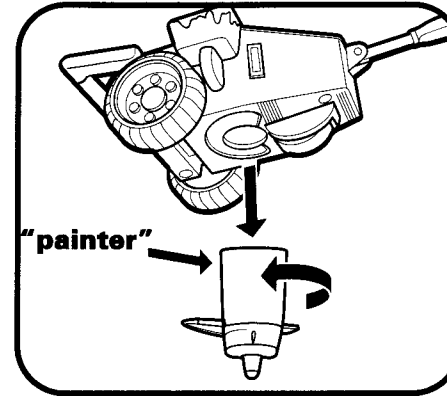

- Fit the street lamp and fence onto the road sections.

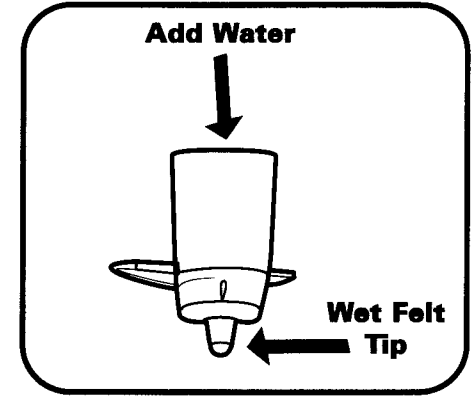

## TO USE THE "PAINTER"

1. Unscrew and remove "painter" from underside of cart.

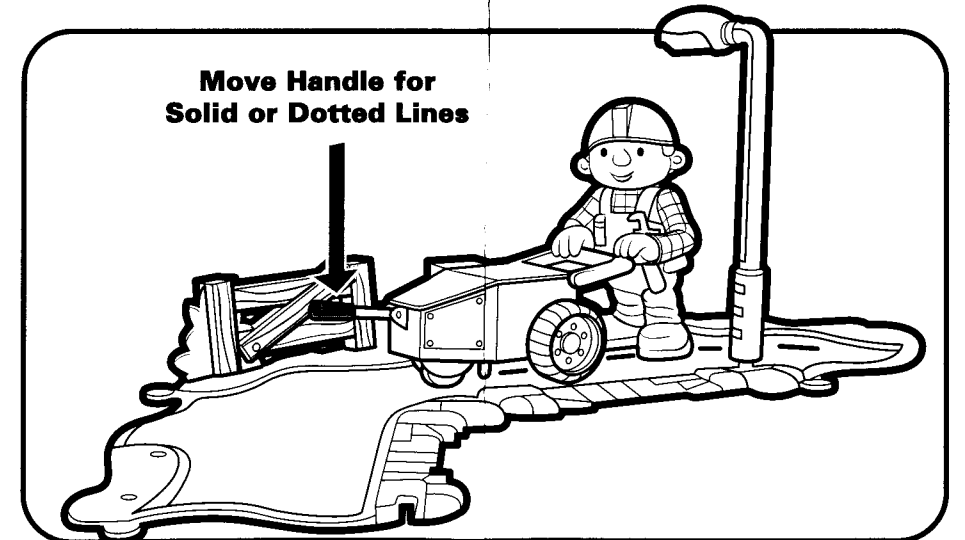

2. Wet the felt tip on the "painter." Fill reservoir with tap water. Screw "painter" back onto cart.

3. Roll the cart over the road to create road lines! Move the handle down into the locked position to create solid lines, or move the handle up to create dotted lines. Make road lines over and over again – they dry and disappear in just a few minutes!

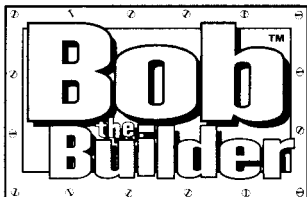

Let Adventure Bob™ \* do the job! Place his hands on the cart handle then give him a push to move the cart and start the roadway painting fun!

### Please Note:

- Do not draw on the road with writing tools other than the felt tip included.
- After playing, be sure to empty remaining water from the "painter."
