APPLYING THE DECALS:

LOADING AND LAUNCHING:

HINT FROM THE INTERNATIONAL B-DAMAN ASSOCIATION™:

Listen up! **HELIO BREAKER** is one tough customer! It's a **Power Type B-DAMAN**, which means its shot is stronger than many other B-DAMAN. The **Helio Arms** straighten the **B-DABALL** holder and prevent it from flexing, so the strength of your shot is increased. Remember though that a stronger shot isn't always as accurate, so use the power wisely!

THE B-DAMAN™ SKILL MATRIX:

The **B-DAMAN SKILL MATRIX** tells you how important each of the five different B-DAMAN skills are for a given event. Check out the **B-DAMAN SKILL MATRIX** before starting the event and customize your B-DAMAN to win!

- Accuracy** - It's important to be able to hit a target dead-on in Accuracy events.
- Power** - Sometimes it's not enough to hit the target; sometimes you've got to hit it hard.
- Balance** - Balance prevents your B-DAMAN from tilting back or to the side at the wrong time while aiming at a target.
- Control** - In Control Events, you've got to be able to maintain control of your B-DAMAN while moving it from side-to-side.
- Rapid Fire** - The more and faster you can launch your B-DABALLS™* in Rapid Fire events, the better.

B-DABATTLE™ *: :

Line a paper or plastic cup on its side with the mouth facing a barrier. Try and bank your shot off the barrier and sink your B-DABALL™* in the cup. And remember, the hallmark of the true B-Damaster is the mastery of the one-handed shot – try making this tough bank shot with one hand behind your back!
