

# Baby All Gone™

DOLL

*So fun to feed again and again!*

It's fun to feed a baby, especially your Baby All Gone™ doll. So take her in your arms, give her lots of love and kisses, and feed her with her own "magic" bottle and spoon. When she wants more, you can refill her bottle and spoon just like real. Now you can feed her again!

## 1 Filling The Bottle

Hold the can of "Baby Formula" in one hand and notice the triangular "opening" on the top. Hold the empty baby bottle in your other hand.

Turning the "formula" can upside down, push the can down against the nipple. For best results, make sure you hold the bottle at an angle until it fills.

## 2 Feeding With The Bottle

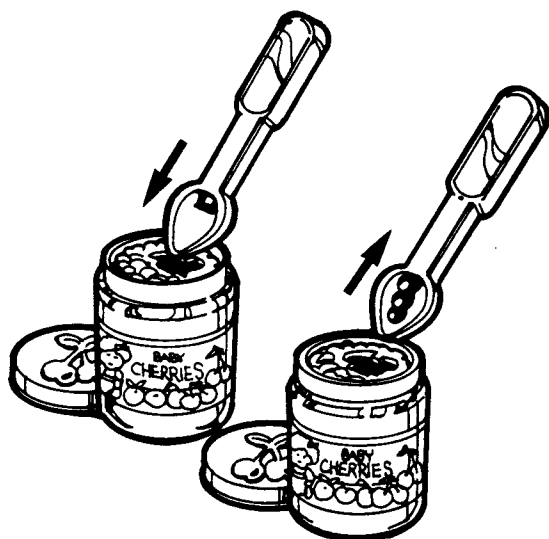

Hold her close and press the nipple to her lips making sure the "milk" is flowing down. Soon she'll finish every last drop and love you for giving her the bottle.

The bottle can be filled again and again, so your baby doll will never go hungry.

## 3 Filling The Spoon

There's nothing your Baby All Gone™ doll likes to eat better than "cherries." Remove the lid from the jar and smell the "cherries." To fill her special spoon, all you have to do is insert it into the cherry jar until you hear a click. Then slowly pull the spoon out, full of juicy, red "cherries."

## 4 Feeding Your Baby With The Spoon

Gently press the spoon against your baby doll's lips, tilting it up a bit when the "cherries" reach her mouth. Hmmm—they'll disappear in one bite!

Keep filling her spoon and feeding the baby until she's full and content. Then give her a big hug and kiss.
