BEYSTADIUM sold separately.

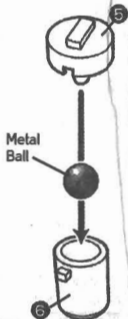

BUILD:

1 Peel and apply labels as shown.

Note: The Bit Chip Sticker on the large label sheet must be applied to the Bit Chip that has the holes/triangle on one side. Apply stickers to smooth sides of Bit Chips.

2 Place one metal ball into inner shaft (6), then placelid (5) on inner shaft.

3 Snap outer shaft (8) and (8) around inner shaft.

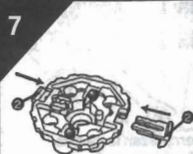

4 Place Weight Disk on shaft.

5 Attach spin gear (3) and (3) to shaft.

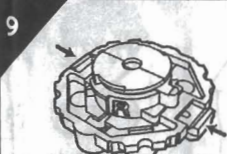

6 Place metal balls in base.

7 Insert Attachments (2) into Blade Base until the tips are just past the knobs. Do not insert attachments all the way in at this time.

8 Place spin gear into Blade Base.

9 Snap Attachments all the way into Blade Base to secure Right Spin Gear.

10 Place Weight Disk on Blade Base.

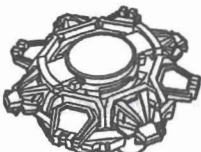

11 Attach Bit Chip to Attack Ring.

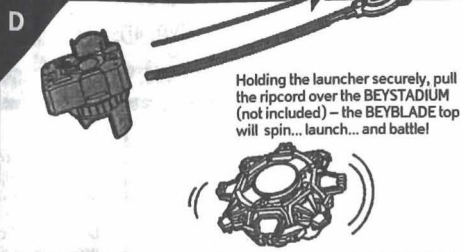

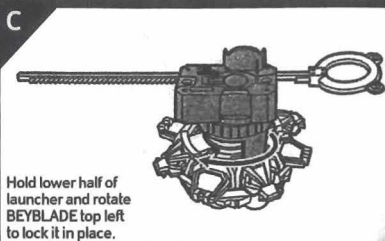

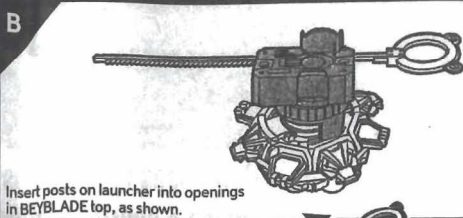

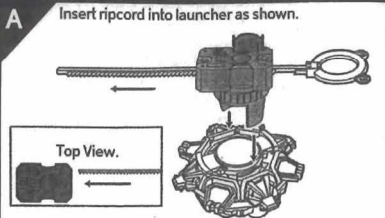

12 Attach Attack Ring to base, aligning tabs on ring with grooves on gear. Turn ring LEFT until it locks onto spin gear. (To remove ring from gear, turn ring right.)

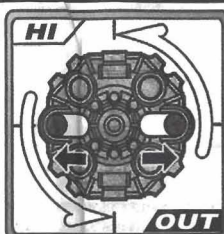

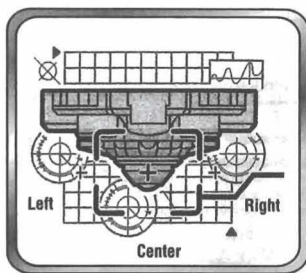

LEFT TO LOCK.

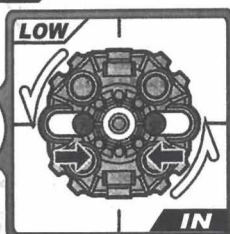

LAUNCH:

FEATURES:

During high-speed spins, centrifugal force pushes the balls outward to help improve spin!

During low-speed spins, the balls move inward to help improve speed and endurance!

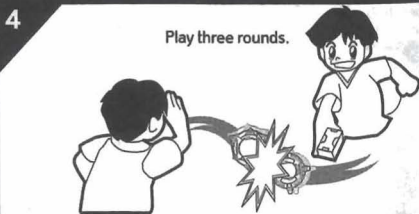

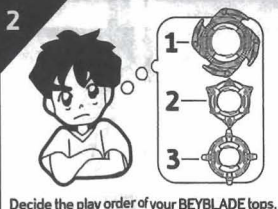

CUSTOMIZE FOR EACH BATTLE!

WHAT IS CUSTOMIZING?

Customizing is taking parts from different BEYBLADE tops and putting them together to create a new top. Why customize? Because you can change how your top will perform in battle. By switching parts, you can create a top that will perform a certain way. For example, if your opponent has an Attack Type top, you may want to change your top's parts to make it a Defense Type top, to help withstand your opponent's attacks.

Learn all the different types of Attack Rings, Weight Disks and Spin Gears that are available and that you have in your collection. Look at the star chart on the packages to see the strengths of each top's parts and check out the website beyblade.hasbro.com for more information!

TRIPLE SHOT You and your opponent each battle 3 BEYBLADE tops for triple the action!
