for battle!

7

Attach Bit Chip to
Attack Ring.

BEFORE LAUNCH:

A. Use Turbo Winder to crank the **ENGINE GEAR™** tip counterclockwise until it clicks.

LAUNCH:

A Insert ripcord into launcher as shown.

(NOTE: Use left-spin launchers for Left Spin Gears; use right-spin launchers for Right Spin Gears.)

B

Insert posts on launcher into openings in **BEYBLADE** top, as shown. Launcher should stay attached to **BEYBLADE** top when inserted correctly.

C

Hold lower half of launcher and rotate **BEYBLADE** top left to lock it in place.

D

Holding the launcher securely, pull the ripcord over the **BEYSTADIUM** (not included) – the **BEYBLADE** top will spin... launch... and battle!

FEATURES:

Greater acceleration with your ENGINE GEAR: ENGINE GEAR tops are equipped with an ENGINE GEAR for a short-term power blast. When the engine kicks in, even a semi-flat tip will be transformed into a tip boasting super mobility. What is ENGINE GEAR? It is a new battle part invented to improve the battle potential of your BEYBLADE. The rotational forces of the BEYBLADE and the engine combine to improve your BEYBLADE with super acceleration performance!

ENGINE GEAR Type 5 — Turbo Left — A specialized spring gives this Left Spin Top a shorter, but more powerful burst of speed!

CUSTOMIZE FOR EACH BATTLE!

WHAT IS CUSTOMIZING?

Customizing is taking parts from different BEYBLADE tops and putting them together to create a new top. Why customize? Because you can change how your top will perform in battle. By switching parts, you can create a top that will perform a certain way. For example, if your opponent has an Attack Type top, you may want to change your top's parts to make it a Defense Type top, to help withstand your opponent's attacks.

Learn all the different types of Attack Rings, Weight Disks and Spin Gears that are available and that you have in your collection. Look at the star chart on the packages to see the strengths of each top's parts and check out the website beyblade.hasbro.com for more information!
