

Bubble Belles™

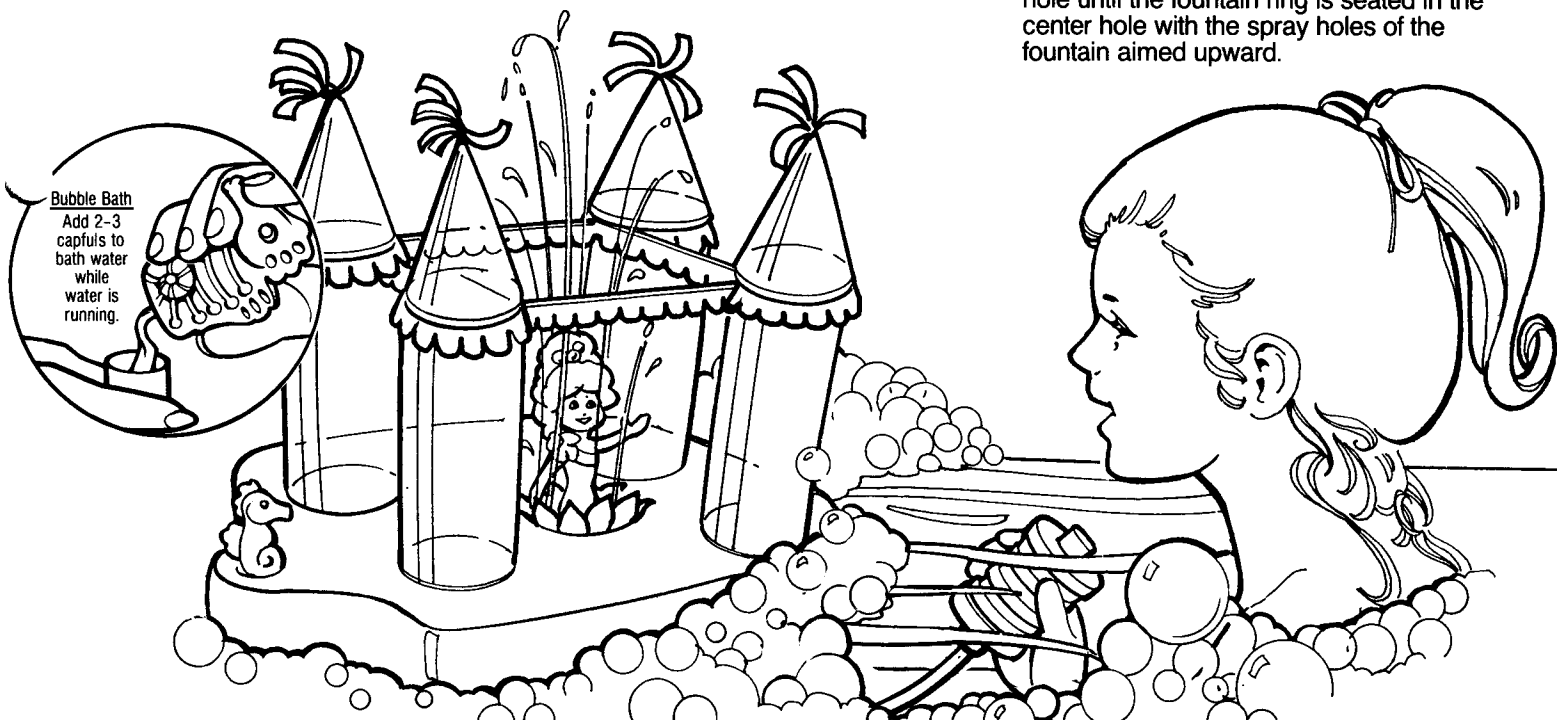

SEA SPRAY CASTLE™ Inflatable Playset
with SEABRINA™ Doll

1. Remove cap from nozzle and blow-up your inflatable Castle while pinching the nozzle. Once filled, replace cap. You can hide the nozzle by pushing the nozzle and cap into a depressed position.

2. You can add the Spray Fountain by passing the bellows and hose through the center hole until the fountain ring is seated in the center hole with the spray holes of the fountain aimed upward.

3. Hold the bellows under water and pump it to fill it with water. Then, squeeze it while holding it under the water to make the fountain spray. A doll can be placed in the center of the fountain ring for play.
