

STEP 1: Fill tub to desired level for your child.

STEP 2: Place Busy Bath against inside of tub, parallel to top of tub and approximately 2" above water level. (End of hose must be at least 1 1/2" below water level (ILL. 1).

ILL. 1

STEP 3: Press Busy Bath against inside of tub until small suction cup sticks securely.

STEP 4: With straps hanging outside of tub, pull straps tight and press moistened large suction cups against outside of tub (ILL. 2).

AFTER USE: Remove Busy Bath from tub and clear of water by turning upside down. Flush Dolphin Squirter with clear water.

ILL. 2

ACTIVITIES

PUMP: pull handle down and release.

DOLPHIN SQUIRTER: shoots a stream of water when pump handle is pulled.

WATER WHEEL: turn Dolphin Squirter to right and pull handle.

WATER-GO-ROUND: turn Dolphin Squirter to left and pull handle.

SAILBOAT: rocks back and forth when water falls from the Water-Go-Round.

SHOWER CUP: fills with water as the Dolphin Squirter activates Water Wheel. Scoops up water and sprinkles, too.
