Crimp Hair!

1. Place about 5 strands of hair in the play crimper. You can start at the top or the bottom of the strands.
2. Squeeze crimper closed. Hold it a few seconds, and you get loose crimps. Hold it longer - you make tight crimps.
3. Release hair. Repeat steps for the length of the hair.

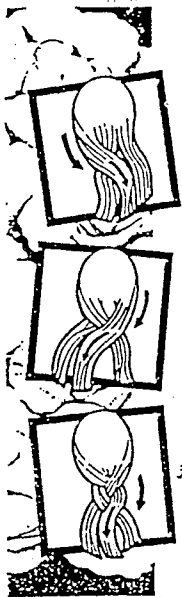

Curl Hair!

1. We recommend curling only 2-5 strands at a time to make great-looking curls that hold their shape.
1. Clamp 2-5 strands of hair onto the play curling iron.
2. Roll the strands around the curling iron.
3. Gently pull the rolled hair off the curling iron.

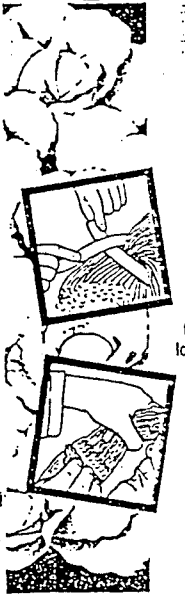

How To Make Braids!

1. Divide hair into three equal sections. For fat braids, use a lot of hair for each section. For skinny braids, use a few strands for each section.
1. Cross the left section over into the middle.
2. Cross the right section over into the middle.
3. Cross the left section over again, then the right section over again.
4. Repeat these steps until the braid is finished. Fasten the end with the fabric tie (included) or a hair elastic (not included).

- Leave some hair loose and tie the rest back into a ponytail or pigtails. Straighten, curl, crimp or braid the hair for lots of great hair fashions.

How To Make Other Hair Styles!
