Cabbage Patch Kids

Dear Parent:

We CABBAGE PATCH SPLASHIN' KIDS are happiest when played with in the bathtub or backyard pool. Water's our favorite playtime place. That's why we're called "Splashin' Kids".

During normal play, we may collect water in our body. But don't be alarmed. The water may be removed by the following instructions.

HOW TO REMOVE WATER FROM YOUR CABBAGE PATCH SPLASHIN' KIDS

First, lay me on my back for a short rest, so the water can drain from my head. Then stand me upright with my hands at my sides. Next, squeeze my tummy. While I'm standing, squeeze my elbows and then my knees. If you don't see water coming out leave my arms at my sides. Lay me on my right side and squeeze my left elbow and knee. Then turn me onto my left side and squeeze my right elbow and knee. (SEE. WASN'T THAT EASY?).

Don't worry if all the water is not removed everytime. We CABBAGE PATCH SPLASHIN' KIDS are specially treated to stay safe and clean. After all, we're CABBAGE PATCH KIDS, aren't we?

*Coleco had a very liberal policy for "Splashin' Kids".
They honored the dolls for a 1 year period.
Ask the consumer to return the outfit &
birth Certificate only.*
