ASSEMBLY INSTRUCTIONS

STEP 1.

Insert the seat plugs through the inside of the seat as shown. **NOTE: BE SURE** the angle of seat plug head matches the angle of seat arm—the long tabs on seat plug fit into the key slots in seat hole.

STEP 2.

Position the carry handle over the seat plug ends.

STEP 3.

Place the handle caps by aligning angle of caps to seat arm angles. Hold each seat plug firmly in the seat arm and press the handle cap on until it snaps securely in place.

STEP 4.

Insert seat belt down through outside slot and up through inside slot in seat. Pass the belt across the seat and down and up through the opposite seat slots, as shown.

STEP 5.

Fold the seat pad sides as shown and place the pad into the seat. Position the seat belt ends into slots in the pad.
