

W/2Do[®]

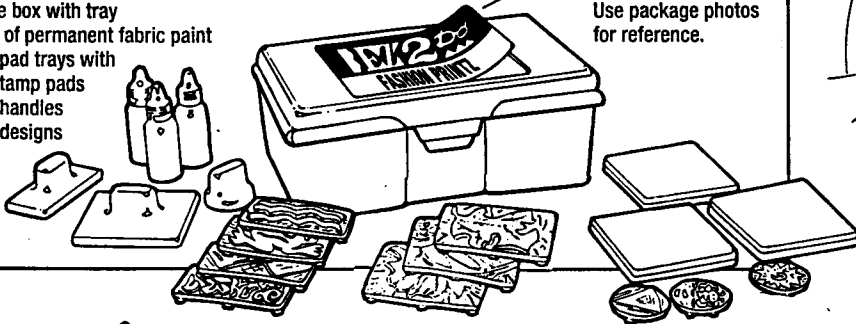

FASHION PRINTZ Kit

PLEASE NOTE:

This set contains **PERMANENT FABRIC PAINT** and should be used with adult supervision. Cover your workspace and wear an old shirt to protect your clothes.

Set includes:

- 1 Storage box with tray
- 3 bottles of permanent fabric paint
- 3 stamp pad trays with foam stamp pads
- 3 stamp handles
- 10 stamp designs
- 1 label

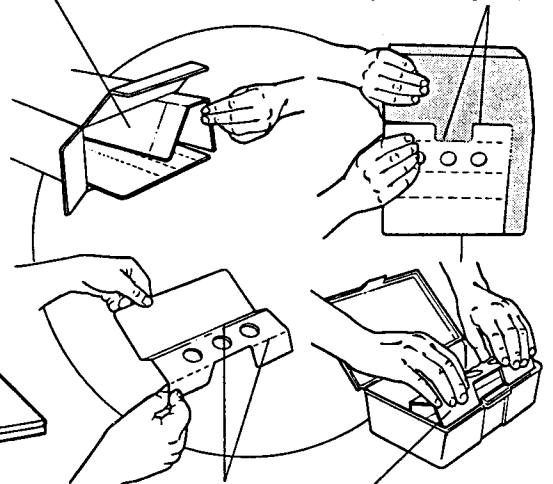

Apply label to box as shown.
Use package photos for reference.

To Assemble Storage Tray:

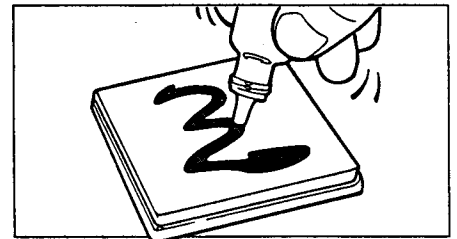

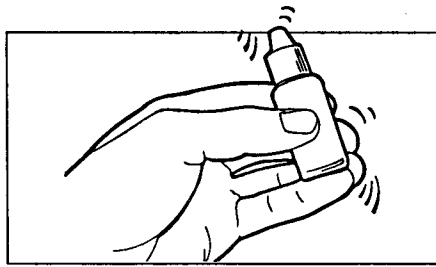

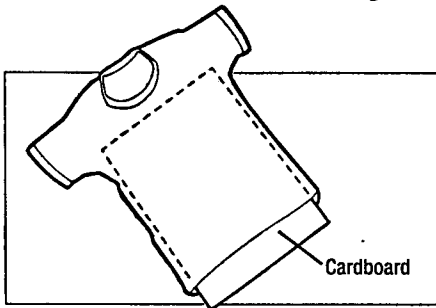

A. Remove cardboard insert from box.

B. Fold and snap on perforated lines to separate storage tray.

C. Make folds on scored lines.

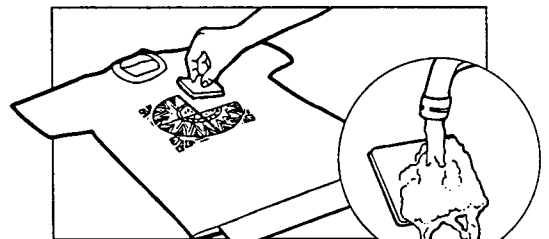

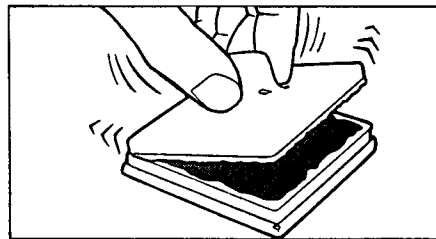

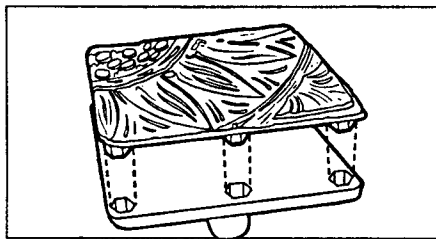

D. Insert the storage tray into the storage box.

1. Select a fabric to be stamped and place a **smooth** piece of cardboard behind it. **PLEASE NOTE:** Paint could bleed through the fabric you are stamping, so always remove cardboard after you finish stamping and allow fabric to hang to dry with both sides of fabric exposed to air. Drying time is approximately 10 minutes.

2. SHAKE PAINT BOTTLE WELL; then remove cap.

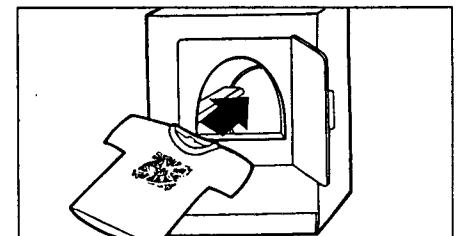

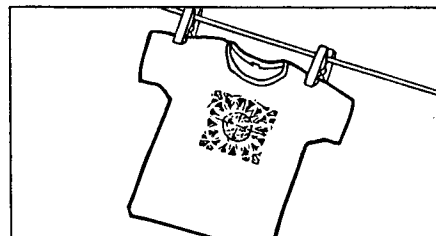

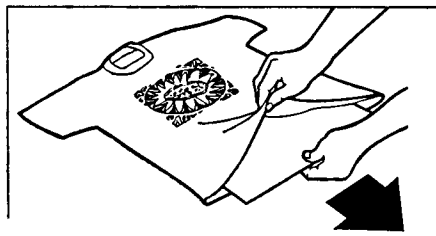

3. With the pad in the pad tray, cover the surface of the pad with paint. Use the paint bottle tip to help spread the paint evenly over the pad.

4. Pick a stamp design and attach it to the same size handle.

5. Place the stamp onto the foam pad. Tap the stamp lightly on the foam pad to cover the stamp's raised design with paint. Check to see if the design is completely covered. You may need to add more paint to the pad from time to time. **Always practice on paper before stamping a garment.**

6. Making sure there are no wrinkles in the fabric, firmly press the paint-covered stamp onto the area of the fabric you want stamped. **Before moving on to your next color or stamp, wash the stamp you have used with soap and warm water.**

7. Once the design you created is complete, **carefully** lift the fabric from the cardboard, making sure not to smear the paint on the back side of the fabric.

8. Hang to air dry for 8 minutes, making sure both sides of the fabric are exposed to air.

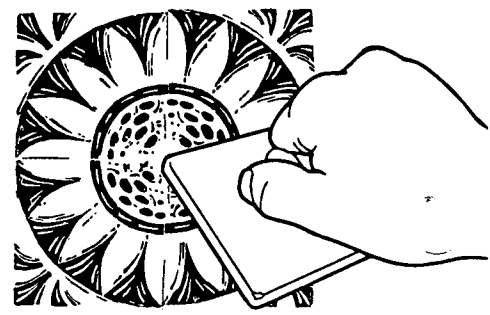

9. To heat-set for permanent, washable designs, put air-dried fabric into clothes dryer by itself at warm setting for 10 minutes or iron on medium setting, on back side of design for 1 minute. The fabric can now be washed according to manufacturer's directions.

FASHION PRINTZ™ DESIGN STAMPS CAN BE COMBINED FOR MANY UNIQUE DESIGNS!

Use these ideas as a starting point to make your mark on all your stuff! Then, mix and match colors and stamp designs as many ways as you can think of. Let your imagination run wild!

Sunflower Design

Repeat stamp design four times, turning stamp each time to make the sunflower design shown.

MIX COLORS TO BRIGHTEN YOUR DESIGNS. Create multi-color design by mixing colors in one of three ways.

Two Pads Side-By-Side

(one color on each pad)

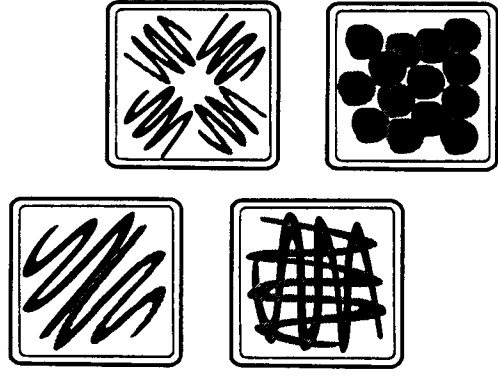

Three Pads Together

(one color on each pad)

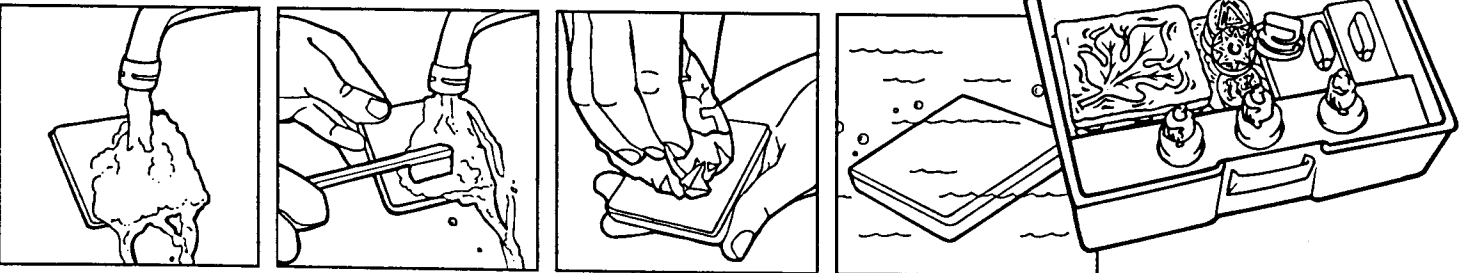

Mixing Colors On One Pad

Note: Be sure stamp is completely covered with paint, even where the two pads meet, before you use it on a garment.

CLEANUP

To avoid unwanted color blending wash stamps in warm soapy water each time you change color. When you finish your project, always rinse the foam pads and stamps in warm, soapy water and rinse until the water runs clear. Expect some color-staining to remain on the pads and stamps. Use an old toothbrush to scrub paint out of crevices in stamps. Dry pads and stamps with paper towels, then allow them to air dry completely before putting away.

When it's time to get more supplies, look in your local art and crafts supply store for plain, permanent fabric paint. (Textured, glitter or puff fabric paint are not recommended.)
