

1. Textures

Select any one of four textured mold edges and press against a molded unbaked frame to create an awesome textured look.

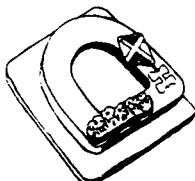

Make your frame totally rad by painting, then wiping paint off raised surfaces with a paper towel before it dries - for a "color-washed" look.

2. Name and Message Plates

Create back panel by flattening out a slab of wet clay slightly larger than your frame. Place and gently press frame onto slab. Use outer edge of frame as guide to trim back panel. Decorate all over with molded pieces. Place in pan design side up. Paint to create a message plate for your room, locker, or as a gift!

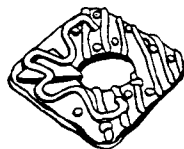

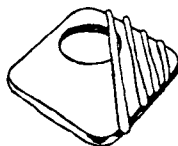

Heat 10 min. - Cool 5 min

3. Coils

Roll coils of clay to lay across frame before baking to create a fun pattern. Trim and gently press coils into frame so they will stick. You can add to your design by laying more clay coils, balls and/or geometric shapes on top of frame for a totally awesome pattern. You can even spell out messages and names with coils. Place in pan design side up.

Heat 10 min. - Cool 5 min

FRAMES & NAMEPLATES

Preheat unit 15 minutes

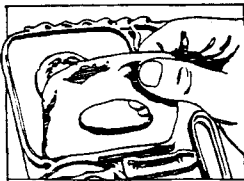

U•Need From This Set: ■ Clay ■ Paint ■ Brush ■ Mold

U•Need From Fashion Machine Set: ■ Pan ■ Knife

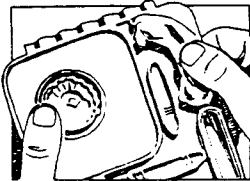

U•Need From Home: ■ Paper Towel

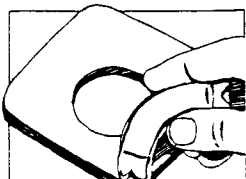

1. Soften clay in hands, dip into cool water then spread wet clay into frame mold with knife.

2. To help remove shape, press a ball of clay into corner of shape and lift. Trim excess clay from frame with knife.

3. Create nameplate and other frame decorations from molds by following steps 1 and 2.

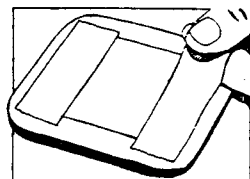

4. Press decorations onto frame and place in pan design side up.

Heat 10 min. - Cool 5 min.

Remove pan with holder.

5. Paint frame, nameplate and decorations with pearlized paints and let dry.

6. Personalize your frame by painting your name on the nameplate. Tape your photo in place and it will be ready to give or display! You can even tape in a small mirror instead of a photo to make a personalized mirror.
