

Fudge Topping

Makes enough fudge topping for one packet of cookie mix

1. While cookies are baking, place 1 fudge packet into the warming chamber located on the side of the oven.
2. Let fudge melt in warming chamber for 8-10 minutes.
3. Remove packet from warming chamber and gently smooch the packet between your fingers to mix up the fudge inside. **BE CAREFUL** – let the packet cool for a few minutes if it is too hot!
4. When cookies are cool, use safety scissors to cut the corner of the packet. Squeeze fudge over cookies and spread in striped layers as shown.
5. Eat and enjoy!
