

Easy Clean™

# Nipple and Collar Caddy

Convenient organizer to clean and store baby's feeding accessories

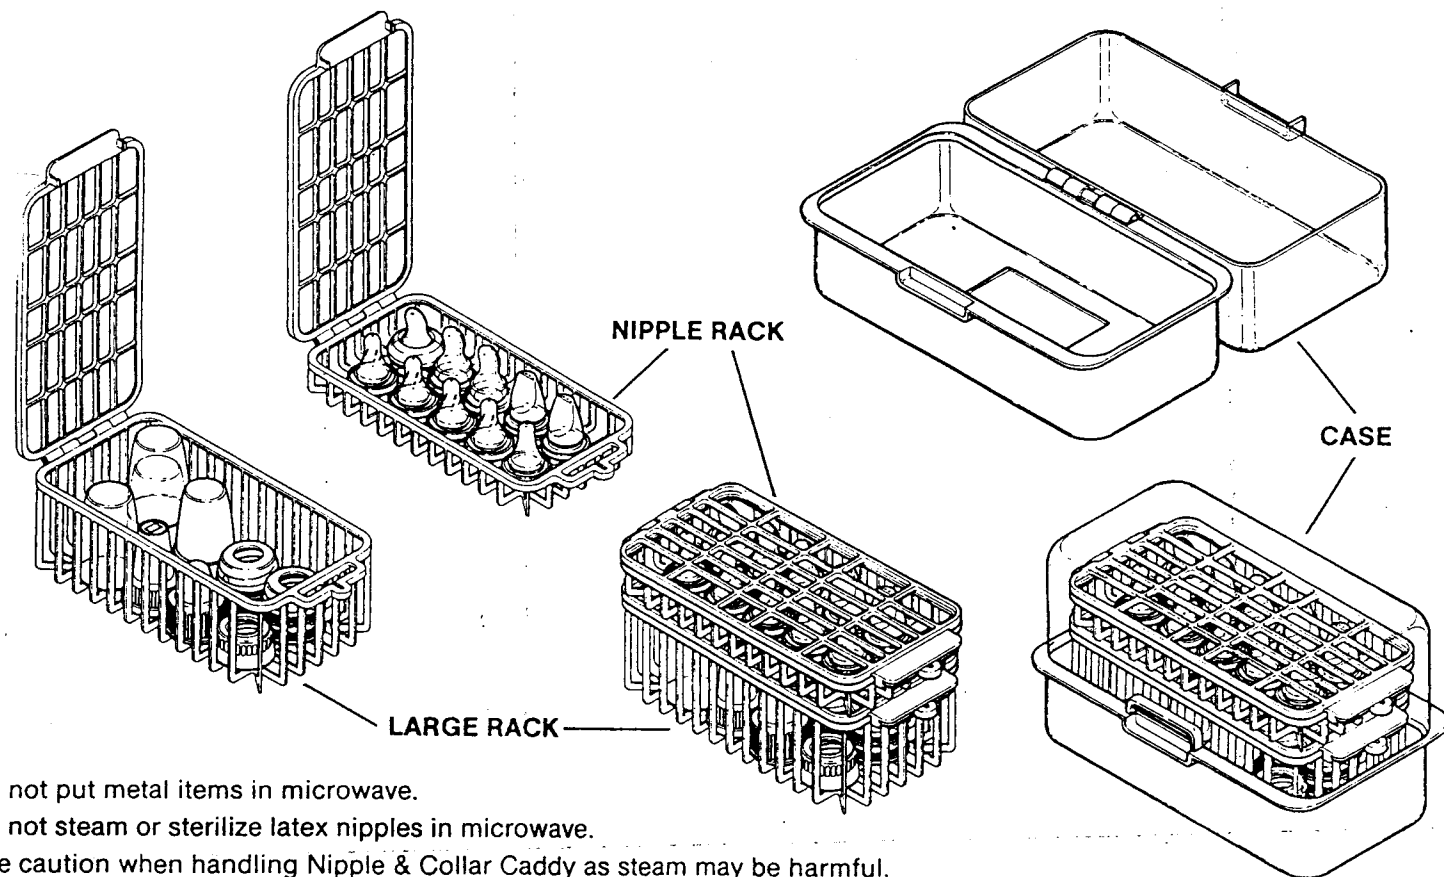

## INSTRUCTIONS

### TO USE IN DISHWASHER:

1. Open nipple rack. Place nipples in rack as shown. NOTE: Wash only silicone nipples with this product. Close rack. Place nipple rack in top rack of dishwasher with nipples facing up.
2. Open large rack. Place hoods, collars, pacifiers and other small infant feeding items in rack. Close rack. NOTE: Make sure all items are dishwasher safe. Place rack in top rack of dishwasher.

### TO STERILIZE IN MICROWAVE OVEN:

1. Fill well in bottom of case with water (approximately 1 oz.).
2. Stack nipple and large racks in case with large rack on bottom of case.
3. Close cover and place case in microwave oven. Set microwave for 3 minutes at high setting to steam and sterilize infant feeding items.
4. Before using, allow items to cool to a safe temperature for baby. NOTE: Before using Nipple & Collar Caddy in microwave, make sure your infant feeding products have been washed in warm, soapy water or in the dishwasher.

Do not put metal items in microwave.

Do not steam or sterilize latex nipples in microwave.

Use caution when handling Nipple & Collar Caddy as steam may be harmful.

If water remains in case after using it in microwave, drain excess water before storing.

USE ONLY AS DIRECTED.

**CAUTION:** Due to uneven heating in microwave ovens, we strongly recommend that you do not use a microwave oven to warm baby's bottles.
