# **ELECTRICAL REQUIREMENTS:**

**120 Volts AC only – 60 Hz. 100 Watts.** 

WARNING: Shock hazard. Pull plug out of receptacle before removing light bulb door and changing light bulb. Do not use light bulbs larger than 100 watts.

CAUTION: Adult supervision recommended. Internal metal edges. Care should be taken during installation of the light bulb. Phillips screwdriver required for assembly.

DANGER: To prevent electric shock, do not immerse oven in water. Wipe clean with a damp cloth. We recommend that you periodically examine the toy for potential hazards and that any potentially hazardous parts be repaired or replaced.

(See back page for company contact information.)

# **ADULT SUPERVISION** RECOMMENDED.

# **ALWAYS:**

- Wash all pans and utensils before using first time.
- Use pan tool to move pans through baking chamber.
- Allow oven, pans and food to cool before handling.
- Unplug oven when not baking.
- Use the correct type of light bulb.

- **NEVER** leave empty pans or pan tool in oven!
- **NEVER** use plugged-in oven around water at any time.
- NEVER leave plugged-in oven unattended or unassembled.
- **NEVER** put your fingers in oven.

# **Safety Tips and Cautions:**

**HOT** pans and food. Handle carefully! **HOT** oven interior, oven top and back. Do not touch!

NOTE: The "new" smell the oven gives off in the first few minutes is produced by the protective oil evaporating from the metal parts in the oven. You may also see a vapor. The oil is food grade, non-toxic, and evaporates quickly. Do not immerse oven in water.

# This Oven includes:

holder end

2 baking pans

2 warming cups

• 1 yellow cake mix

spatula

- 1 chocolate flavored frosting mix
- 1 butterscotch chip cookie mix

# cooking spray

 Flour Nonstick

needed:

also

- Rolling pin
- Mixing bowl
- 100-watt light bulb, frosted or standard. \*Do not use soft white or long life bulbs.

# **Install Light Bulb**

## ADULT SUPERVISION RECOMMENDED.

- Loosen screws from battery door and remove battery door from oven.
- Install one standard 100-watt bulb (regular or frosted) into the socket in the panel.
- DO NOT use long life, soft white or high efficiency bulbs, or bulbs of higher or lower wattage, which will cause oven to work improperly.
- Replace the door and 4 screws.

# **Before You Bake:**

- 1. Wash pans with soap and water and dry thoroughly before first use and always after baking.
- 2. The oven should rest flat on a level surface at all times.
- 3. Make sure both metal doors inside the oven are closed.
- 4. Plug in oven and preheat for 15 minutes.

# **Oven Basics**

- 1) Preheat oven for 15 minutes.
- 2) Place baking pan in baking slot, then use pusher end of your pan tool to push pan into oven.
- 3) Make sure both metal doors are closed.
- 4) When baking time is done, use pusher end of pan tool to push through to cooling chamber. PAN IS HOT! Cool for ten minutes.

- 5) Using holder end of pan tool, remove pan.
- 6) Unplug oven when finished baking. Wait for oven to cool, then wipe it down.
