### JEWEL TOP

JEWEL BASE

After you've designed your jewel piece just the way you want it, place a clear jewel top onto the jewel base. Be sure the jewel top matches the jewel base in size and shape. Top should fit snugly onto base.

To secure the jewel top to the jewel base, close the lid and snap it shut. Then, lift the tab on the lid and open the lid again. Look at the beautiful new designer jewel piece you just made!

## CREATE IT!

Fit the bottom tab on the jewel base into a jewelry piece for a glamorous new creation! Jewelry pieces include rings, necklace loops, barrettes, button clasps and button covers.

## SHOW THEM OFF!

Fantastic Jewel Designer creations are great to wear and share with your friends! Jewelry pieces can also be attached to bookcovers, backpacks, refrigerators, mirrors and more! Just remove a double-stick pad from the sheet, adhere it to the bottom of the jewel base, then stick the jewel piece wherever you want.

## STYLE SUGGESTIONS

- Mix 'n match combinations of confetti, rhinestones, beads, glitter and trinkets in the jewel base.
- Place the maze trinket into a large round jewelry base, then place a bead into the maze. (After you complete the jewel piece, try to guide the bead all the way through the maze!)
- Glue accessories into the jewel base for a more permanent creation. To use the glue, unscrew and remove cover from the bottle. Peel away the clear seal covering the opening. Screw on bottle cover and discard seal. Remove cap from tip of bottle cover and pour glue into jewel base. Be sure to pour glue only within the inner edge of the base. Glue dries to an attractive gold finish.
- Add glitter gel to the inside of the base. (Use the bottle of gel in the same way as indicated for the glue.)
- Remove an art design from the sheet and place it inside the jewel base, then add accessories to enhance the look!
- Accent your creations with your own little trinkets and treasures. You may also want put the picture of a friend or a special note inside your jewel.
