(1) Begin **Lani's** new hairstyle by making five small braids in her mane. Hold these in place with her lacy bow. (2) Loop up her two tail braids and secure them with one of her barrettes. (3) Finish **Lani's** super new hairstyle by adding another barrette to her tail and her beautiful rose headpiece.

(1) Make a braid using Niki's topnot and one of Niki's braids. Hold the braid in place with the rest of the hair together with her second barrette. (2) Gather Niki's butterfly barrettes. (3) Complete Niki's flashy new look with her head bow, tail wrap and fancy leggings.

Start Chloe's new hairstyle by dividing her mane in half. (1) Take part of each half and loop it up, then secure each loop with a barrette. Gather the remaining hair in another barrette. (2) To make her even fancier, loop up her tail and keep it in place with her sequined tail wrap. (3) To finish, place the crown and cape on Chloe, making her the fanciest princess around.
