**THE MOST ACTION PACKED TARGET GAME EVER!**

### Important tips:

To apply the sticker illustrations to the targets match the letter on the sticker to the letter on the back of the target. (Example: label "A" with target "A")

To load the 3 pop up targets into the Flingshot<sup>®</sup> Shoot'em Up<sup>™</sup> base push all the way in and pull forward until you hear a click. Place the two front targets facing forward for easy game play or sideways for a more difficult target. The targets are now loaded and ready to go!
