FLUPPY DOGS have the run of the place, and they want you to join in the fun. They're hiding under chairs and tables, clocks and rugs, beds and bookcases. But not just any FLUPPY DOG you find will do. Can you find one that matches a color in your chain of FLUPPY DOG cards?

EQUIPMENT

A platform game board • 24 FLUPPY DOG cards

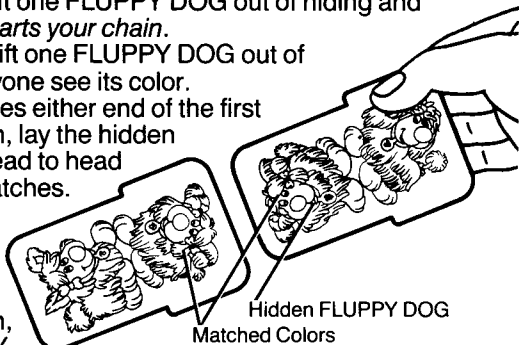

SETUP

1. Carefully remove the FLUPPY DOG cards from the perforated sheet.
2. Carefully punch out all 24 perforated slots in the game board.

3. Insert the small end of each of the cards into a slot on the board. *The FLUPPY DOG that goes into the slot is the one that is hiding.* (NOTE: The PLAY-ON-TOP platform game board remains inside the box for game play.)

PLAYING

1. The youngest player goes first. Turns then pass to the *left*.
2. On your first turn, lift one FLUPPY DOG out of hiding and keep it. *This card starts your chain.*
3. On your next turn, lift one FLUPPY DOG out of hiding and let everyone see its color.
 - If the color matches either end of the first card in your chain, lay the hidden FLUPPY DOG head to head with the one it matches. End your turn.
 - If the color does *not* match either end of the first card in your chain, hide that FLUPPY DOG again inside any open slot on the board. End your turn.
4. On each of your following turns, try to color-match hidden FLUPPY DOGS with one on either end of your chain of cards.
5. Try to remember where hidden FLUPPY DOGS are put back, so that you can find the ones you need to make a color-match.

END OF GAME AND WINNING

As soon as one player collects 5 cards in his or her chain, the game ends. This player is the winner!
