WHEEL ASSEMBLY

10

FIRING MORTAR BOMBS

ILL. 11A

ILL. 11B

Peel and apply labels as shown.

2

PLACE LABELS ON LEFT (PORT) SIDE OF VEHICLE ALSO.

7 Snap peg on red missile rack gun into hole in side of green scoop arm and repeat process on other side. Push red missiles onto tabs on the top and bottom of missile rack gun. (ILL. 7)

8 Slide tabs on bottom of red mortar cover into slots in rear body section. Snap tabs on the upper sides of mortar cover into slots at top of rear body section. (ILL. 8)

9 Snap the three red release levers onto tabs at bottom of mortar cover as shown. (ILL. 9)

10 Snap gray wheels onto purple pegs on vehicle body as shown. (ILL. 10)

11 To fire green mortar bombs automatically: Set firing pin in mortar bomb to firing position by pushing pin up into bomb and pressing in on side tab. Drop mortar bomb into mortar tube to automatically fire. (ILL. 11A)

To fire green mortar bombs manually: Set firing pin in mortar bomb to firing position by pushing pin up into bomb and pressing in on side tab. Set red release levers in the "Ready Position." Gently lower bombs into mortar tubes and press levers down to launch mortars. (ILL. 11B)

NOTE: If mortar bombs do not fire, turn vehicle over until mortar bombs slide out of mortar tubes. Repeat the firing process.

Caution: Do not aim weapon at eyes or face.

KEEP FACE AWAY FROM MORTAR TUBES AT ALL TIMES.
