# NINJA LIGHTNING™ INSTRUCTIONS

Ages: 5 & Up

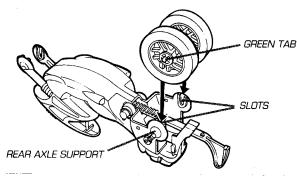

Remove all pieces from plastic frames.
If you have difficulty, use safety scissors

**CONTAINS:** Ninja Lightning cycle with zipcord, 2 missiles, detachable sidecar with trigger, front wheel halves, 2 rear wheels, 2 treads, wheel gear, sidecar wheel and label sheet. **CAUTION:** Do not aim weapon at eyes or face.

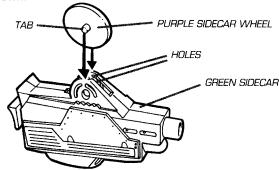

### 1 WHEEL ASSEMBLY

Fit black treads onto green wheels as shown. NOTE: It may be necessary to trim excess bumps left by the runner frame from both black tires so treads have a smooth surface.

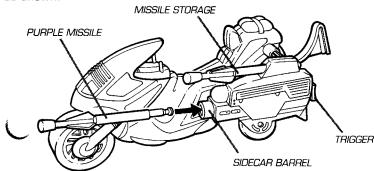

### 3 WHEEL ASSEMBLY CONT.

Snap green tabs on rear wheels into slots inside rear axle support as shown.

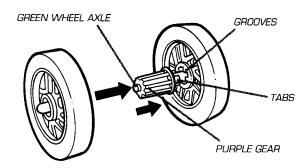

# 5 SIDECAR ASSEMBLY

Snap tabs on purple sidecar wheel into holes in green sidecar as shown.

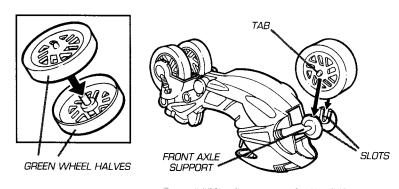

## 7 MISSILE FIRING AND STORAGE

Insert purple missile into sidecar barrel as shown. To fire, press purple trigger at rear of sidecar. Other missile can be stored in top of sidecar as shown.

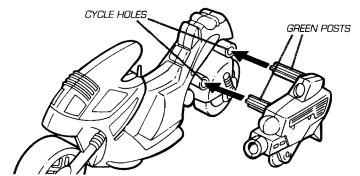

### 2 WHEEL ASSEMBLY CONT.

Press purple gear onto green wheel axle, fitting tabs in gear into grooves in wheel as shown. Press other wheel onto axle.

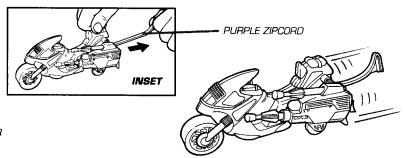

### 4 FRONT WHEEL ASSEMBLY

Press green front wheel halves together. Snap green tabs on sides of front wheel into slots inside front axle support as shown.

### 6 SIDECAR ASSEMBLY CONT.

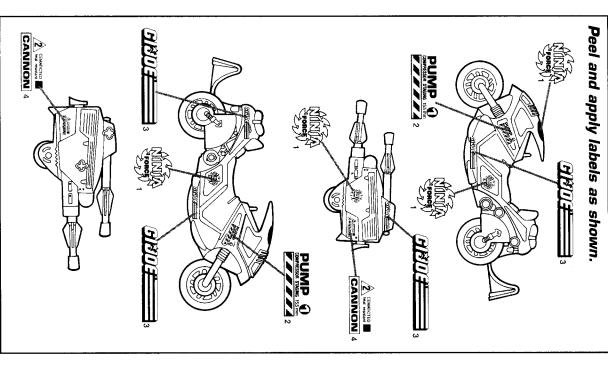

Press green sidecar posts into blue cycle holes as shown. Sidecar is designed to be taken on and off cycle.

# 8 ACTIVATING CYCLE

Pull back on purple zipcord strip at rear of cycle, then press down slightly on rear of cycle to hold cycle in place (INSET). Release zipcord and cycle. **NOTE:** For best results, use the **Ninja Lightning on a hard flat surface.**
