

**ELECTRONIC LCD VIDEO GAME****1 THE HARLEY-DAVIDSON® STORY**

Isn't it time you drove a Harley? Now you can! You're at the controls of the "King of the Highway", the FLHTC with Ultra Classic Electra Glide!

"Live to ride and ride to live" is your motto. But the riding is quite a challenge when you encounter pot holes in the pavement, overgrown palm trees in the middle of dirt trail, other riders riding too close to you, oil slicks, "Sunday drivers" in their automobiles driving way too slow for conditions, deer that run across the highway, and abandoned car mufflers in the road! (If they'd have been riding a motorcycle, they would never have lost their muffler!)

**2 INSERTING THE BATTERIES**

To insert the batteries, remove the battery compartment cover at the back of the game. (To remove cover, push in direction of the arrow.)

Insert two "AA" batteries, UM-3 or equivalent (not included), making sure to align "+" and "-" as shown.

Do not use rechargeable batteries.

After battery insertion, the ACL switch may be pushed only if the game doesn't work properly. (Use a ball-point pen.) The display should appear as in the diagram below.

### 3 CAUTION

High temperature will destroy the unit. Do not leave unit in direct sunlight.

Do not press the liquid crystal display and avoid heavy shock or the display may fall.

Do not use a pencil or pin to press the ACL switch. Use a ball-point pen.

Clean only with a piece of soft dry cloth.

Replace batteries at the first sign of erratic operation.

### 4 THE OBJECT OF THE GAME

The objective of the game is to drive cross-country and reach Daytona Beach, where about a million fellow bikers meet every year for the Harley-Davidson parade of bikes!

But it's a long drive. You have to pass through 20 stages and 99 cities to reach Daytona Beach! Each stage has five cities—except the final stage, which has 4 cities!

You WIN the game if you can drive through all 20 stages and 99 cities and reach Daytona Beach within the given time limits!

### 5 CONTROL GUIDE

## 6 FEATURES

- drive your own Harley-Davidson motorcycle
- 20 stages
- 99 cities to visit
- 6 gears
- "starter" signal
- windshield
- rear view mirror
- timer
- gas level
- built-in melody
- sound on/off control
- high score retained
- built-in automatic power-off timer

Start your Harley-Davidson and drive across 99 cliffs to reach Daytona Beach! Start your engine when you see the "starter" signal light up! Keep an eye on your rear view mirror to see what is coming up behind you!

You will encounter different obstacles as you drive. You'll lose time when you crash into an obstacle. You must complete each stage before the timer drops to zero! Keep an eye on your windshield to see obstacles approaching! Speed up to full power before shifting up to the next gear in order to increase your speed capacity!

Try to steer clear of obstacles along the way by carefully watching the action through your rear view mirrors, your windshield, and the caution signals (such as the "Deer Crossing Ahead" sign) that appear on screen! Obstacles include deer crossing the road, overgrown palm trees, oil slicks, and abandoned mufflers!

Also steer clear of "Sunday drivers" in their automobiles driving too slow for conditions!

Harleys are also affectionately called "hogs". The faster you go, the harder it will be to steer your "hog"!

You also have to watch your gas level carefully. Refuel your gas tank once you pull into a gas station. The game is over if you ever run out of gas!

You WIN THE GAME by reaching Daytona Beach!

The ACL switch may be pushed if the game isn't working properly. (Use a ball-point pen).

Press the ON/START button to turn on the unit. You'll hear an "On" beep and your highest score attained will be displayed.

Press the ON/START button again to start the game from stage 1! "1" is displayed on screen!

You are riding on your FLHTC Harley-Davidson motorcycle with Ultra Classic Electra Glide! You are on your way to Daytona Beach where about a million bikers meet every year for the Harley-Davidson parade of bikes!

It's a long drive. There are 20 stages, with 5 cities in each stage until you reach the final stage. In the final stage, there are only four cities, a total of cities in all to reach Daytona Beach!

There is a TIME LIMIT for each stage. You must complete each stage before the timer drops to zero or the game is over. You lose valuable time whenever you crash into an obstacle!

The timer is regularly displayed so that you can see how much time remains! When you complete a city, the next city number is shown.

You WIN the game if you can complete all 20 stages and drive through all 99 cities and reach Daytona Beach within the given time limits!

### **Use your control panel to help you:**

#### **PRESS ON/START**

- to turn on the unit.
- to start the game.
- to start from each new city.

#### **PRESS GAS**

- to fill up your gas tank once you pull into a gas station and the speed is decreased down to gear 0 (stop).

PRESS SPEED

—to go faster.

PRESS BRAKE

—to brake.

PRESS GEAR

—to shift from gears 0 (lowest) to 5 (highest).

PRESS "▶"

—to steer right.

PRESS "◀"

—to steer left.

**There are many OBSTACLES along the road, including:**

- POT HOLES IN THE PAVEMENT
- OVERGROWN PALM TREES IN THE MIDDLE OF DIRT TRAILS
- OTHER RIDERS RIDING TOO CLOSE TO YOU
- OIL SLICKS
- "SUNDAY DRIVERS" IN AUTOMOBILES DRIVING WAY TOO SLOW
- DEER THAT RUN ACROSS THE ROAD
- ABANDONED CAR MUFFLERS

You must WATCH YOUR GAS LEVEL carefully. There is at least one gas station on the road within each stage. Remember, if you run out of gas, the GAME IS OVER!

When you reach a gas station, press the BRAKE button to stop inside it. To refuel, press the GAS button and your gas tank will count up to full! After refilling, you will automatically be placed back on the road!

In addition to steering onto left and right, you can also use your BRAKE to stop. You press SPEED to go faster and press GEAR to shift from 0 (the lowest gear) to 5 (the highest gear).

The higher your gear shift, the higher your SPEED CAPACITY.

The lower your gear shift, the lower your speed capacity.

So "shift up" to increase speed capacity! However, the faster you go, the harder it will be to steer your "hog". (Remember that Harley riders call their motorcycles "hogs!").

The game pauses as you complete each stage and the next stage number appears on screen as the next city awaits you! Press the ON/START button to start the next leg of your cross country journey when you are ready!

Press the SOUND button to travel in silence. Press it again to regain all the sounds of the open road!

Press the OFF button to turn off the game when you're finished playing. But don't worry if you forget because you're driving quite a machine—it automatically shuts itself off after about 3 minutes of no action!

So, crank up your engine and feel the breeze against your face as you hit the open road! Next stop, Daytona!

## 9 DEFECT OR DAMAGE

If a part of your game is damaged or something has been left out, DO NOT RETURN THE GAME TO THE STORE. The store doesn't have replacement parts. Instead, write to us at:
