Krystal Princess

Imagine a land faraway, hidden behind the clouds so high, where everything sparkles like diamonds, and shimmering krystals fall from the sky.

This is the World of Krystal Princesses, filled with krystal dreams, and every time a krystal falls, magical things happen, it seems. Each princess makes dreams come true, in her own special way, to make the world more beautiful, and a better place to stay. Some use the forces of nature, to make things sparkling bright, others listen to your dreams, to bring joy and delight. Just give their domes a shake, and see the magic they will make.

Their magic is everywhere a krystal may fall... here, there or anywhere at all. All they need is a shake from you to make a dream come true! So look around and you will see, just how wonderful krystal dreams can be!
