

You're so lucky! You are the proud new owner of six Glittering Goldfish from the LITTLEST PET SHOP!

What Pet Shop would be complete without colorful fish in an aquarium? Your Glittering Goldfish love to float happily in the water. Press down on them with your finger and they'll bob right back up. They need you to take care of them, but most of all they need you to love them!

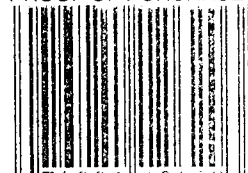

Put your fish in their new little home and fill it up with water. They love it in the Freshwater Pool!

Guess what happens when you squeeze the seashell against the tabletop! Just like magic, air bubbles escape and the treasure chest opens to reveal the beautiful treasure inside. Wow!

These two inserts are packed
in the CPS Glittering Goldfish in
Freshwater Pool. Prod. # 12620

FISH ASSEMBLY INSTRUCTION

With each fish in an upright position,
carefully snap the clear filament on the
fish into one of the six holes in the
bottom of the aquarium, TRY not to bend
the filament in the process.

Attention:

For easier operation
of the seashell pump,
press it against a hard
surface as shown.
