Marker Designs™

Thank you for purchasing this LITE-BRITE ILLUMIN-ART Easel refill set!

This set includes 8 LITE-BRITE ILLUMIN-ART Easel marker image refill sheets.

CREATING MARKER PICTURES

1. There are two sides to the removable peg/drawing screen. The smooth drawing side has a clip at the top of the screen to hold your pictures in place. Be sure this side is facing towards you before you begin a marker picture.

2. Place a marker picture sheet flat and straight on the screen. Use the clip to secure the picture, then draw, trace, color and have creative fun!

There are various types of marker image sheets in this refill set:

COLORING SHEETS

Color the Tiger or MY LITTLE PONY scenes and light them up to display cool pictures!

FRAME SHEET

Use this sheet to create your own amazing pictures!

ANIMATION IMAGE SHEETS

Certain images will "come to life" when viewed in one of the six animation settings. For example, The Butterfly will "fly in circles" when viewed in animation setting 5 (press the animation button 5 times)!

TRACING SHEETS

The ILLUMIN-ART Easel will light images from behind, allowing you to see through the drawing sheet. To create a dinosaur scene, separate the Dinosaur picture sheet along perforations. Trace dinosaurs onto the Prehistoric Dinosaur Scene picture sheet and create a unique picture.

DRAWING/TRACING WITH HIDDEN IMAGES

These design picture sheets have hidden images that can only be viewed on the illuminated easel. The Class Pet Day design picture sheet will reveal images to trace when viewed in animation setting 1 (press the animation button 1 time).
