CREATING PEG PICTURES

1. Be sure the peg side of the removable peg/drawing screen is facing you. Place a peg picture sheet flat and straight on the peg screen. Push a peg through the hole in each star to secure the picture to the screen.

2. When pegging a picture, follow the printed letters on the sheet to tell which color pegs to use.
3. Insert the colored pegs through the paper and into the peg screen as far as they will go.

There are various types of peg image sheets in this refill set:

FOCUS IMAGE SHEETS

The focus design sheets are best viewed from a distance. Peg the Abraham Lincoln design picture sheet and stand back to view the full image!

ANIMATION IMAGE SHEETS

Certain images will “come to life” when viewed in one of the six animation settings. For example, the Cyclist will “ride in circles” when viewed in animation setting 5 (press animation button 5 times)!
