Scholastic's

## BODY SAFARI™ HEART CENTRAL™

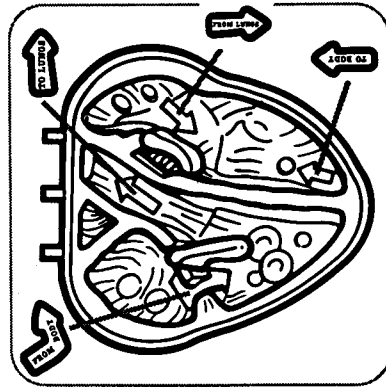

Thank you for purchasing this exciting, hands-on toy from Kenner. For maximum enjoyment of this toy, please be sure to read and follow the instructions carefully. If you have any questions, comments, or need additional information concerning this product or its parts, please call our Kenner Consumer Service hotline at 1-800-327-8264, Monday through Friday, 8:00 AM to 5:00 PM Eastern Time.

Includes: heart, 3 color change blood cells, white blood cell, bacteria, The Magic School Bus, Ms. Frizzle, Body Safari guide and label sheet!

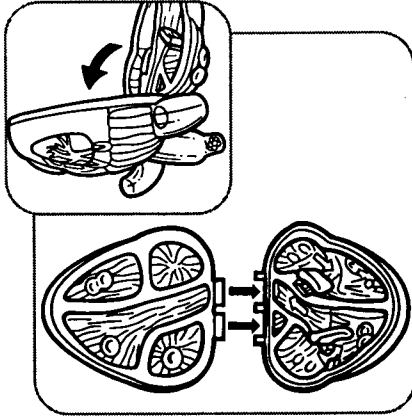

14026

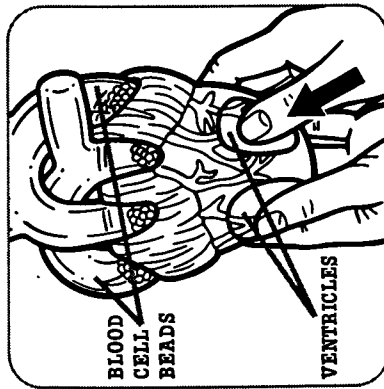

**ASSEMBLY**

Peel and apply labels as shown.  
 Note: Place labels for white blood cells anywhere you like!

Snap hinge pieces together as shown to connect heart halves. To open heart, swing up top half and rest artery branches on a flat surface as shown.

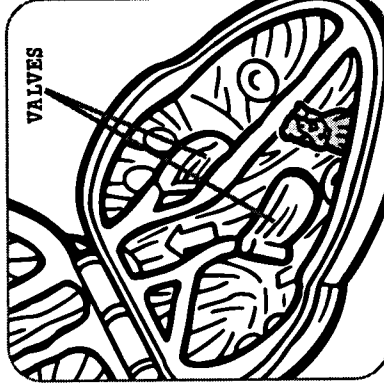

**WATCH THE BLOOD FLOW!** Tip the heart down and shake the blood cell beads through the clear arteries so that the red beads collect on the side of the left (red) ventricle, and the purple beads collect on the side of the right (purple) ventricle. To make the blood cells flow through the arteries, press the ventricles! Then, tip the heart down, shake the beads back through the arteries and start all over again!

**PLAY FEATURES**

**COLOR-CHANGE FUN!** Rub the blood cells with your fingers to make them turn red... then watch them slowly turn back to purple at room temperature! This is to show that as the heart pumps blood through the body's tissues, the blood goes from bright red (full of fresh oxygen from the lungs) to bluish-red as it gives out oxygen along the way.

Note: For instant color changes, place the blood cells in a cup warm water to make them turn red; place them in a cup of cold water to make them change back to purple!

**TRAVEL THROUGH THE CHAMBERS OF THE HEART WITH MS. FRIZZLE!** Use the open-and-close valves on each side of the heart to get from the top to the bottom! You can also stand Ms. Frizzle in any of the 3 recessed circles inside the heart. For a truly pulsating experience, you can take a ride through the heart on The Magic School Bus!

**SURPRISE!** Send Ms. Frizzle through the tunnel under the pulmonary artery (this is the artery that goes to the lungs) and watch as she comes out the other side!
