

Tons of fun with Mickey and pals!

23065

BASIC PLAY:

Use the playmat as a play area. Choose a character book mold and fill both sides with PLAY-DOH® compound, carefully pressing compound into each part of the mold. Leave excess on each side as shown.

Tightly close the two-sided mold. Open mold, remove excess with trimmer knife, and carefully lift out the molded character. Make standing figures of Mickey, Minnie, Donald and Goofy!

ADVANCED PLAY:

Fill the book molds with different colors to create details in face and clothing. You may also get the same result by adding colors to an already completed figure.

CLUBHOUSE ASSEMBLY:

Place base on a flat surface, fit the side walls into the slots on base, and place roof on top as shown. You may use the flagpole with the Clubhouse or with the bathtub.

The Clubhouse walls and the picket fence have lots of additional molds to make fun accessories for the characters!

EXTRUDER/ROLLERS:

The bucket is also an extruder - push down on a ball of PLAY-DOH® compound and watch worms grow! - and the 4 wheels may be used as shape-cutting rollers.

BATHTUB VEHICLE ASSEMBLY:

Fit the flagpole into the hole inside tub. To convert the bathtub into a zany vehicle, slide the 4 wheels over the 2 wooden rollers . . . then fit the ladder on top of the wheels, nest the tub on top, and you're ready to roll!

CLEAN-UP:

DO NOT USE HOT WATER OR CLEANING SOLUTIONS to clean PLAY-DOH® modeling compound from carpets or fabrics. For best results, remove excess and allow compound to dry. Loosen compound with stiff brush and vacuum clean. If necessary, wash with gentle soap, COLD water and brush. Repeat if necessary. Replace compounds in their respective cans and seal lids tightly.

NONTOXIC CONFORMS TO ASTM D-4236-89
