INSERT BATTERIES

1. Remove the screw from the battery compartment door located underneath Mr. Bucket. Then remove the door and insert two "C" size alkaline batteries as shown in Figure 6. Make sure you match up the (+) and (-) symbols. Then replace the door and the screw.

5

2. Test the batteries by pressing the handle tab downward to the ON position as shown in Figure 7. If Mr. Bucket does not begin moving, waving his arms and making a ringing sound, the batteries might be weak or improperly installed. After testing, pull up on the handle to shut off Mr. Bucket.

IMPORTANT: Batteries may leak if improperly installed. Remove batteries when game will not be used for an extended period of time.

GET MR. BUCKET READY!

Mr. Bucket works best on a hard floor. (Avoid carpeted areas.) Place all of the plastic balls nearby on the floor. Each player chooses a different color shovel and gathers around Mr. Bucket. If less than four children are playing, place unused shovels and matching color balls out of play.

LET'S PLAY!

When everyone is ready, one player presses Mr. Bucket's handle tab downward to the ON position. Mr. Bucket will begin moving, jingling and circling around the floor.

Scoop Them Up!

Players must immediately try to scoop up a ball that matches their color shovel and quickly drop the ball into Mr. Bucket.

Note: Only pick up your own color ball. Remember to use your shovel, not your fingers!

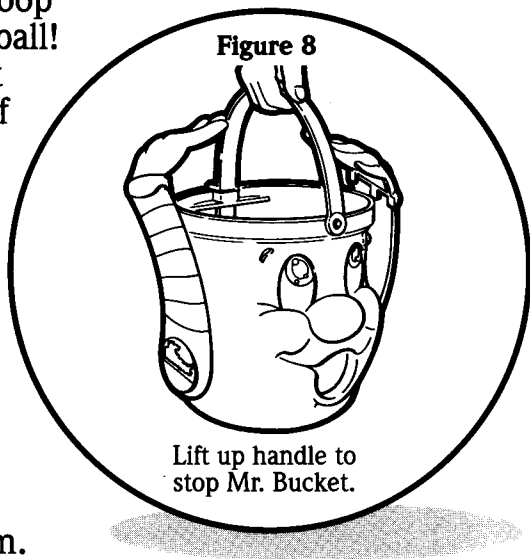

Fill Him Up!

After you've dropped one ball into Mr. Bucket, run back and scoop up another matching color ball!

You must hurry! Mr. Bucket will pop the balls back out of his mouth almost as fast as you drop them in! Players must keep scooping up their matching color balls and dropping them into Mr. Bucket.

Lift Him Up!

As soon as all three of your matching color balls are inside Mr. Bucket, quickly lift up the handle to stop him.

WINNING THE GAME

Be first to have all three of your matching color balls inside Mr. Bucket. Then lift up the handle to shut off Mr. Bucket. **YOU WIN!**
