

PLAYSKOOL®

Ages & Stages®

Playskool's Ages and Stages system takes the guesswork out of choosing the right toy at the right time for your child, by organizing all our products into easy-to-understand categories that reflect the progressive stages of child development.

Early Learning

Preschoolers learn basic skills as they play with objects that can be manipulated in different ways. As they stack, sort, link, and fit together objects, they are learning colors, shapes, sizes and numbers. They enjoy unstructured play, which provides the freedom to experiment and explore and encourages them to enhance their hand coordination. Playskool My First Barrel of Monkeys® gives children fun opportunities to develop Early Learning Skills.

PRE SCHOOL

PLAYSKOOL®

My First Barrel of Monkeys

The classic Barrel of Monkeys® is now available in a size made especially for preschoolers. The colorful, chunky monkeys link together, and are also numbered 1 to 10 to help kids learn their numbers!

10 Chunky, linking monkeys!

All pieces store in barrel!

Helps teach colors and numbers!
