

SCOREMORE BASKETBALL

AGES 4 AND UP

1. LABEL APPLICATION

Apply the labels to the backboard using the numbers on the label sheet and this illustration as a guide.

3. TRAINING RIM

Lower the training rim to aid a younger child in making a basket. When the child gains skill, raise the training rim for harder shots.

2. ATTACHING THE NET & HOOP

Attach the net to the hoop by sliding the ends over the hooks. Once the net is on the hoop, snap the hoop all the way onto the backboard as shown.

4. HOOP STORAGE

The hoop can be pulled forward then raised for storage.

5. ATTACHING TO DOOR

A. Slide the three straps into place in the slots on the sides and top of the backboard. Attach the clamps to the straps. **B.** Place the top clamp over the top of the door. Adjust for height. **C.** Adjust the side straps using the self-gripping fasteners so the clamps hold the backboard centered on the door as shown.

6. ATTACHING TO POLE

A. Slide the straps with self-gripping fasteners, under the braces of the center two pole supports. **B.** Place the backboard against a pole and wrap the straps around the pole and secure the backboard to the pole using the self-gripping fasteners on the straps. Make sure you have the backboard the height you want BEFORE you tighten the straps. Periodically adjust strap tightness as needed. **C.** The clamps can be stored on the backside of the backboard as shown.

IMPORTANT NOTE TO PARENTS:

- Adult supervision required.
- Product is not designed for slam dunks.
- Never hang from hoop or training rim. Components are designed to disassemble under excessive force.
- Ball may be reinflated using standard inflation needle. Do not overinflate.
- Straps should be periodically checked and tightened as needed.
