

HOW TO PLAY

1. Each player launches darts at the other players.
2. When a player is tagged, that player is eliminated and must sit out the rest of the game.
3. The last player standing wins and is declared the winner.

1. One player is designated "The Rabbit" and wears a vest, but has no blaster.
2. "The Rabbit" has a one-minute head start and runs and hides.
3. The other players must chase down "The Rabbit."
4. With one tag, "The Rabbit" is immobilized.
5. All players freeze and "The Rabbit" swaps places with any other player.
6. The new "Rabbit" is given a new one-minute head start.
7. To increase the challenge, the number of tags that immobilize "The Rabbit" can be increased prior to resuming play.

1. One player from each team wears the vest backwards and becomes "The Mark."
2. The other players become shields and take tags for "The Mark." You may reuse missed darts.
3. Shields can take multiple tags but need to freeze and count aloud 15 seconds before they can move again.
4. One tag on "The Mark" and the game ends.

1. One player on each team is designated "The Witch Doctor."
2. When any of "The Witch Doctor's" players are tagged, they freeze.
3. Frozen teammates cannot move until "The Witch Doctor" touches them and raises them from "The Dead."
4. "The Witch Doctor" can also raise "The Dead" from the opposing team for his/her own army.
5. The game is over when "The Witch Doctor" is tagged.

1. Two flags are set up, one at each team's home base.
2. Each team tries to capture the opposing team's flag and bring it back to the home base.
3. When individual players are tagged, they must stop and return to the home base and cannot resume play until 20 seconds have been counted aloud.
4. When individual players are tagged with the flag, it must be dropped and they must return to the home base and cannot resume play until 20 seconds have been counted aloud. The flag is left where the player was tagged.
5. The opposing team may return their flag back to their base as long as in the process they are not tagged. If they are tagged, the flag is dropped and the tagged person must return to his/her home base. Play cannot be resumed by that player until 20 seconds have been counted aloud.
6. The game is won by a team when it successfully brings the other team's flag to their home base.

1. One "Central Flag" is set up, in the center of a field.
2. Each team tries to capture the flag and bring it back to their home base.
3. When individual players are tagged, they must stop what they are doing and return to the home base and cannot resume play until 20 seconds have been counted aloud.
4. When individual players are tagged while carrying the flag, it must be dropped and the player must return to the home base. Play cannot be resumed by that player until 20 seconds have been counted aloud.
5. The flag is always played from where it lays.
6. A team wins the game when it successfully brings the "Central Flag" to their home base.

1. One player is "The BodySnatcher" (denoted by wearing a backwards vest).
2. All other players have a 15-second head start and try to avoid "The BodySnatcher."
3. Every time "The BodySnatcher" is tagged, it freezes for 15 seconds (which must be counted aloud).
4. When individual players are tagged by "The BodySnatcher," they are now "The Corrupted" (on "The BodySnatcher's" team) and must also turn their vests backward. From that point onward, "The Corrupted" are subject to the same rules as "The BodySnatcher."
5. When only one player is left, that player now becomes "The Super BodySnatcher" and play starts from the beginning with "The Super BodySnatcher" attacking the rest of the players.
