

Once your toy is assembled, apply these labels using this illustration as a guide. Put a label on each side of the backboard.

6

Place the assembled game on a secure, flat surface. To shoot, place a ball into the cup on the "shooter". Pick your shooting location. Hit the center of the lever to shoot the ball.

Each player picks a set of colored balls. Together they yell SHOOT" to begin shooting. The first layer to get all hree balls through he net into the ball ube is the winner. The better you get he fancier and onger your shots vill probably be. fou can even make ip your own game!

26890.02

When you are finished playing, slide the "shooters" into the storage brackets located on the sides of the pole. The balls store in the ball tubes,
