

Make An Instrument

Clarinet Keys

If the clarinet keys come off, they can easily be re-attached to the clarinet tube. Align spring on key between the 2 triangles. Snap holes on key onto knobs on posts.

Non-Soundmaking Pieces

90° Elbow

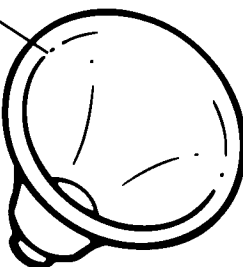

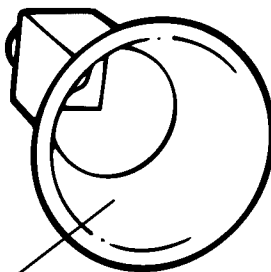

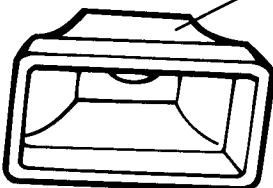

Mouth Piece

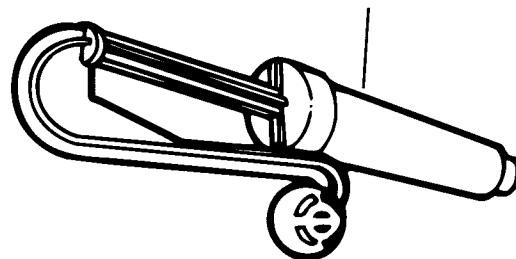

45° Elbow

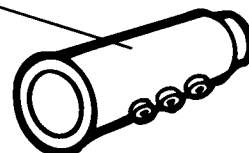

3 Bell Ends

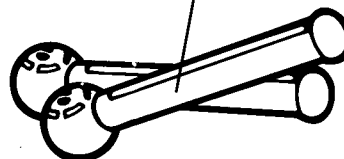

"Slide Whistle" Tube

"Flute" Tube

2 Drumsticks/Xylophone Hammers

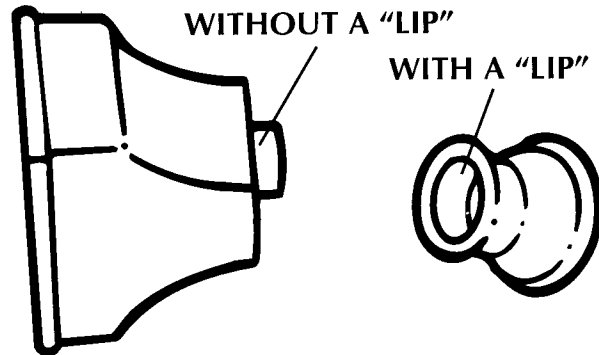

Make An Instrument is a great toy for more than one child to play with at a time. Children connect the pieces different ways to create wacky musical instruments! They can assemble several instruments at one time, or make one big instrument using lots of pieces.

Here are two simple guidelines for children to keep in mind as they play:

1. Attaching the Pieces:

You must always attach an end with a "lip" to an end without a "lip". Look at these illustrations to see the difference between the two types of ends:

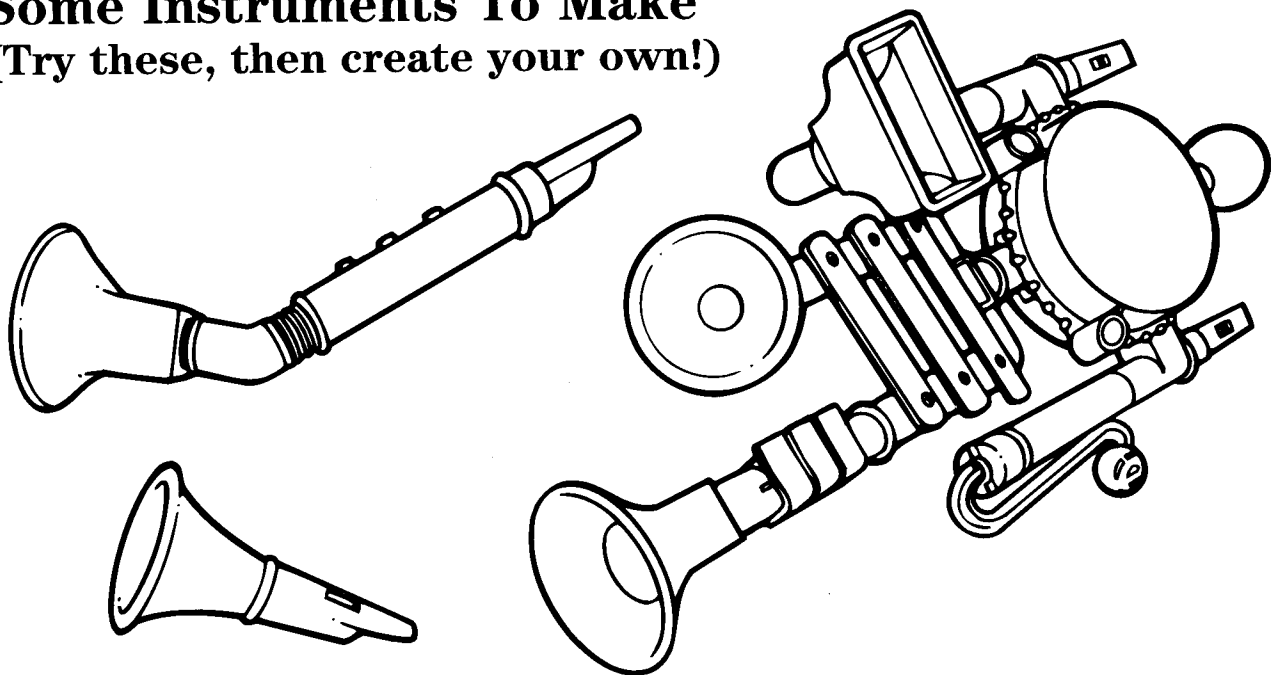

2. Soundmakers & Non-Soundmakers:

Soundmaking pieces can make fun sounds by themselves. Non-soundmaking pieces must be attached to soundmaking pieces to make honks, whistles and more wacky music!

Note: Store the drumsticks in the loops on the rim of the drum.
