

DIRECTIONS FOR PLAYING Parker Brothers' Pegboard Game **PEGITY**

COPYRIGHT © 1962

Parker Brothers Inc.
SALEM, MASSACHUSETTS • DES MOINES, IOWA
NEW YORK • CHICAGO • SAN FRANCISCO • ATLANTA
MADE IN U.S.A.

For 2, 3 or 4 Players

THE OBJECT:

The object of the game is to get five pegs of one color in an uninterrupted row in any direction on the board. Players place their pegs with this idea in mind.

THE PLAY:

Each player selects all the pegs of one color. To begin the game, one player puts one of his pegs in any hole on the board, the other players doing the same in turn.

Players place their pegs in turn, one at a time, in any hole which has not already a peg in it.

When any player gets three pegs in a row, with an empty hole at each end, the other players should "block" him by placing their pegs at either end of his row of pegs and thus prevent him from getting five in a row. Each player should try to get five of his own pegs in a straight row, at the same time watching his opponents and "blocking" any attempt on their part to get five in a row.

THE WINNER:

The player who first succeeds in getting five pegs of his own color in a straight row in any direction, but in adjacent squares (either in a horizontal, vertical or diagonal row), **WINS THE GAME.**
