### INSTRUCTIONS:

Fill both sides of mold with PLAY-DOH® modeling compound, carefully pressing compound into each part of the mold. Leave excess on each side as shown.

Close the mold, pressing the two sides together. Open mold, remove excess, and carefully lift out the molded character. For advanced play, fill the mold with different colors to create character details, or add colors to an already completed figure.

### CLEAN-UP:

DO NOT USE HOT WATER OR CLEANING SOLUTIONS to clean PLAY-DOH® modeling compound from carpets or fabrics. For best results, remove excess and allow compound to dry. Loosen compound with stiff brush and vacuum clean. If necessary, wash with gentle soap, COLD water and brush. Repeat if necessary. Replace compounds in their respective cans and seal lids tightly.
