Create glamorous,
glittering jewelry designs!

INSTRUCTIONS:

To make a pretty ring, fill the clear mold with sparkling PLAY-DOH® modeling compound, then snap into place as shown.

The top and bottom of the jewelry case, as well as the inside cutter, have lots of additional molds to make pretty shapes and decorations.

Use the edges of the inside cutter as shown to make patterned strips of PLAY-DOH® compound.

CLEAN-UP:

When you are finished playing, use a ball of modeling compound to pick up the small pieces of compound from the play area and molds. Replace compounds in their respective cans and seal lids tightly. For best results, do not mix sparkling compound with regular compound.

Make beautiful jewelry with the Jewels & Gems™ Assortment!
(Sold separately.)

Photo shows items made with some colors not available in this set. Molded results may vary depending on child's age and level of skill.
