

New
Pokémon!
FROM THE
Gold & Silver
EDITION

POKÉMON MEMORY

Gotta catch 'em all!

For 1 or More Players • Ages 3 and Up

CONTENTS

48 picture tokens • 1 plastic storage tray

OBJECT

Find the most pairs of matching Pokémon® tokens.

GAME SETUP

1. Carefully punch the 48 tokens out of the cardboard sheet.
2. Mix and spread the tokens Poké Ball-side-up on a flat surface.
Note: Keep the plastic tray for storing the tokens. This will prevent them from becoming marked.
3. Form 8 rows of tokens across and 6 rows down, using all 48 tokens (24 pairs). Or, divide the tokens in half (12 pairs), and form 6 rows across and 4 rows down, for beginners.

GAMEPLAY

1. Youngest player goes first. Players take turns, to the left, turning any two tokens Pokémon-side-up. The tokens must be turned over completely, so that all players can see them.

A MATCH: You make a match if the two tokens turned Pokémon-side-up are identical. When a match is made, take both tokens and place them in front of you. Now take another turn, and continue taking turns until you miss.

A MISS: You miss if the two tokens turned over are not identical. When you miss, turn the two tokens Pokémon-side-down; again, in the same place. Your turn ends — and all players try to remember which tokens were turned over, for future matches.

2. The game continues until all tokens have been matched and removed from the playing area. All players then count up their matching pairs.

WHO WINS

The player who has the most pairs of matching tokens wins.

IF THERE IS A TIE

If two or more players found the same number of matching pairs, the player who found the Chikorita™ pair wins the game.

SOLO PLAY

This is excellent practice for developing concentration and memory skills. Just set up the game as described above, using any number of pairs, and count the number of turns it takes you to match them all. Try to improve with each game you play.
