

POKER BINGO

FOR 2 TO 12 PLAYERS

Poker Bingo consists of an exciting variety of five games using Bingo boards, chips and a deck of 52 special size playing cards, which are all included. Each game combines the play of Bingo with a poker style. For your convenience and referral, the rank and card values of poker hands are listed below, from high to low.

1. Straight flush — five cards in sequence of the same suit. High card of sequence determines winner in ties.
2. Four of a kind — the same denomination of four suits.
3. Full house — three cards of one denomination, plus a pair of another. The rank of the three cards determines the winner if 2 or more hands are tied with full houses.
4. Flush — five cards of the same suit, but not in sequence.
5. Straight — five card sequence, but not in one suit
6. Three of a kind — three cards of the same denomination.
7. Two pair — two cards of the same denomination, plus two others of the same denomination. Higher pair of the two in each hand determines the winner when 2 or more hands are tied with 2 pairs.
8. One pair — two cards of the same denomination.

The Bingo boards have been designed to have equal value and each one gives its player an opportunity to make each of the hands described above.
