Ages & Stages™

The Ages and Stages system takes the guesswork out of choosing the right toy at the right time for your child, by organizing all our products into easy-to-understand categories that reflect the progressive stages of child development.

TM

Love & Caring

Children like to have a special companion to love and care for. They may have one object that remains with them from infancy through the preschool years, or they may enjoy the company of several friends. Teddy bears, blankets, dolls and "first friends" such as Raggedy Ann, provide a comforting presence as children grow and explore, to share adventures during the day and to snuggle at night.
