# Heart-to-Heart® RAGGEDY ANN® Instructions

**RAGGEDY ANN HAS A SPECIAL HEART THAT BEATS JUST FOR YOU... YOU CAN FEEL HER HEARTBEAT WHEN YOU HUG HER OR TOUCH HER HEART!**

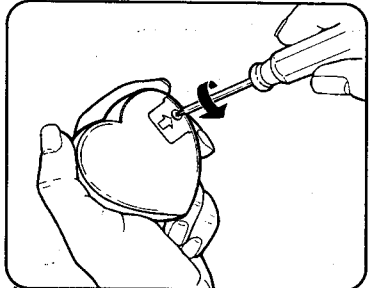

**PRESSURE ON FRONT OF DOLL WILL ACTIVATE HEARTBEAT MECHANISM.**

## TO REPLACE BATTERIES Phillips® screwdriver required (not included).

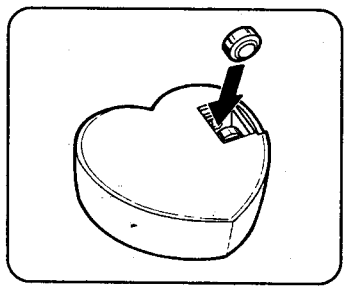

Raggedy Ann comes with 2 A-76 button-cell batteries. When they are exhausted, replace them with any of the following batteries: 357A, A-76, SR-44, or PX-76A. ALWAYS use two of the SAME battery style - never mix different styles of batteries.

Unfasten closure on back of Raggedy Ann and remove heart unit.

Loosen the small screw that secures the battery compartment door, and remove door.

Discard used batteries and insert 2 new batteries, following direction indicators inside compartment.

Refit battery door and retighten screw.

Press the small heart on front of unit to check for a heartbeat. (If unit fails to beat, batteries may be incorrectly positioned.)

Carefully replace the heart unit, front facing forward, into the opening on Raggedy Ann's back. Fasten closure.

- CAUTION:**
1. As with all small batteries, the batteries included with this toy should be kept away from small children who still put things in their mouths. If they are swallowed, promptly see a doctor and have the doctor phone (202) 625-3333 collect.
  2. When installing replacement batteries make sure the batteries are inserted correctly and follow the toy and battery manufacturers' instructions.
  3. Never mix old batteries with new batteries.
  4. Batteries may explode or leak if recharged, disassembled or heated.

**NOTE:** If heart stays on, you will need to re-distribute stuffing to prevent it from pressing on the heart.

If unit bulges or fits awkwardly, re-distribute the stuffing until the fit is comfortable to hold and hug.

## TO WASH RAGGEDY ANN

Heart unit **MUST** be removed before washing. Machine wash - gentle cycle, cold water, mild detergent. Do not bleach. Tumble dry - low heat setting.
