Tips for Successful Force Flips

Skill and practice is required to master the Force flip. Here are some tips to help you become a Jedi Master of the Force flip!

- Make sure both of the figure's heels are pressed all the way into the feet indentations on the launch pad.
- It may help to place the tip of the lightsaber on the walkway in position shown.
- It may help to place two fingers on the edge of the metal base and apply light pressure to hold down the base before flipping the figure.
- Move arms and torso to different positions to find the optimum flipping performance.
