**R2-D2™**

**Quick Reference Guide**

*Tips & Tricks on How to Use Your Astromech Droid*

**Powering Up**

1. Ensure R2 is assembled and batteries are installed per manual.

2. After you turn the Master Power Control Switch on, R2 will need to warm up for 30-45 seconds. You will know he’s warming up because his Droid Mood Status Indicator will flash between red and blue. During that time, he will not fully respond to your commands.

3. **Press Wheel Lock Control button** to unlock wheels (glows red when wheels are locked). NEVER use R2-D2 near stairs or on a table UNLESS R2’s wheels are locked.

**Communicating With R2**

It can take some time to get used to communicating with R2. Following are some tips to help you get started. Refer to the manual for more detailed information.

1. R2 responds best when in a quiet environment.

2. Speak slowly and clearly so R2 understands you.

3. Leave time between each command so R2 can acknowledge you with a beep. For example: Say “Hey R2” ...R2 will respond with a series of “beeps”. Then say “Game Mode” ...beeps...Then say “Dance Program”.

4. **R2 may start talking or moving without a command from you.** This may happen because:
   - R2 likes to talk
   - He did not understand you
   - He is responding to other sounds or voices in the room.

5. **R2 cannot hear you when he is moving or speaking.**

**Helpful Hints** With time you will understand that R2’s different beeps and whistles will represent yes, no, or I don’t understand. If you aren’t sure what R2 is saying, use the commands below.

1. **A great way to get R2 to stop what he is doing is by tapping him on the head** to interrupt him.

2. **Use the “Reset System” command as often as needed to get R2 back to Companion Mode.** This is a great way to start any new commands or if you are not sure what mode R2 is in.

**Important:**

NEVER use R2 outside.
And NEVER use R2 near stairs or on a table UNLESS R2’s wheels are locked.

See other side for a map of R2’s commands.

**Please note.** This is just a guide. Please read and refer back to the instruction manual for details on R2’s features.
Command Guide

Say: “Hey, R2!”

Companion Mode
- "Go on patrol"
- "Don’t move"
- "Behave yourself"
