

POWER CYCLE® ASSEMBLY INSTRUCTIONS

Ages 1½ to 3
Weight Limit 40 lbs.

Model No. 50500

PLEASE NOTE: ADULT ASSEMBLY REQUIRED. READ INSTRUCTIONS PRIOR TO ASSEMBLY.

TOOLS REQUIRED (NOT INCLUDED): Hammer, regular Screwdriver, Phillips Screwdriver and a small block of wood (approx. 2" x 2" x ¾").

WARNING:

ADULT SUPERVISION AND INSTRUCTION REQUIRED REGARDING THE PROPER USE OF THIS TOY. THIS RIDE-ON TOY SHOULD NOT BE USED NEAR SWIMMING POOLS, ON OR NEAR HILLS, ROADWAYS, SLOPED DRIVEWAYS, ALLEYS OR STEPS. SHOES MUST BE WORN AT ALL TIMES. ONLY ONE RIDER AT A TIME. DO NOT RIDE AFTER DARK. DO NOT CARRY ANYTHING THAT IMPAIRS VISION. CAUTION: DO NOT LEAVE CHILD UNATTENDED.

STEP 1. FRONT WHEEL PEDAL ASSEMBLY

NOTE:

BEFORE you start assembly, check all parts carefully. See parts diagram on page 4.

NOTE: For ease of assembly, trim all plastic parts of excess material

Slide a spacer washer onto the pedal crank-shaft up to the wheel center. Next, slide a pedal onto the pedal crank-shaft (rounded corners on pedal away from the wheel). Then, slide a palnut cover onto the pedal crank-shaft (flat side facing pedal) and finally, fit a palnut over protruding end of shaft, as shown.

STEP 2. FASTENING OF PEDAL TO PEDAL CRANK-SHAFT

Use the edge of a flat surface to support the wheel pedal assembly (see illustration). Then, position the palnut tool over the palnut and strike the end of the tool with the hammer. Make sure the palnut is engaged by pulling on the pedal. Repeat STEPS 1 and 2 for the opposite side of the front wheel.

STEP 3. JOIN FRONT FORK TO WHEEL ASSEMBLY

Fit the fork under pedal crank-shaft as shown. Make certain that spacer washers are between the wheel and fork.

BE SAFE

- DO NOT RIDE POWER CYCLE AFTER DARK.
- DO NOT CARRY ANYTHING THAT WILL IMPAIR VISION.
- DO NOT RIDE DOUBLE ON YOUR POWER CYCLE.

STEP 4. ASSEMBLE FRONT WHEEL TO FORK

Position the axle cap over the pedal crank (see illustration). Next, using the screwdriver, tap and drive a 1" length screw into the hole closest to the top of the fork. Do the same with a 5/8" length screw in the remaining hole. Repeat this step for the other side of the fork.

NOTE: Do not use excessive force when driving the screw into the front fork. Do not overtighten.

STEP 5 ATTACHING REAR WHEELS TO BODY

Place the rear axle onto a small block of wood, as shown. Secure a palnut to one end of axle using the palnut tool. With the three spokes facing out, slide axle through one wheel. Then, slide a clicker onto the axle in the position shown. Push the assembly through the left side of the body.

Slide the remaining clicker onto axle as shown. Put other rear wheel (with 3 spokes out) onto the rear axle.

STEP 6. FASTENING REAR WHEELS TO BODY ASSEMBLY

Put a palnut on the end of the rear axle. Using the palnut tool and hammer, fasten the palnut as shown. This will fasten the wheels to the body assembly. Make sure block of wood is placed as shown.

STEP 7. ATTACH FRONT FORK AND HANDLEBAR

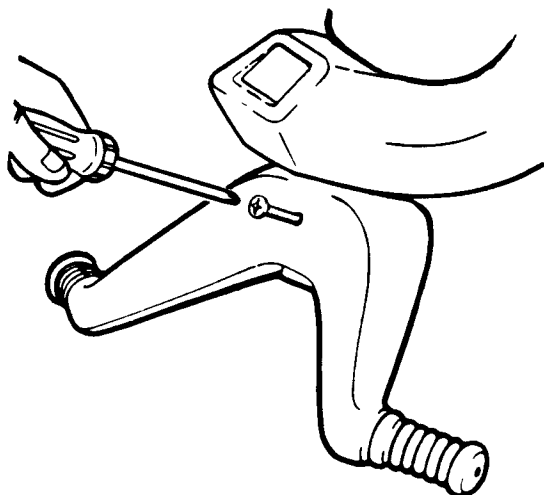

Insert the front fork through body. The axle caps must face the back of the cycle. Then, slide the handlebar onto the fork post, handles facing back. Handlebar must be fully seated to fork.

STEP 8. FASTEN HANDLEBAR

Insert two (2) 1 1/2" screws into pilot holes on each side of the handlebar until screws are engaged. Then turn cycle upside down on its handlebars. Push down on fork and screw the screws tightly into handlebar assembly.

BE CAREFUL NOT TO OVERTIGHTEN.

STEP 9. ASSEMBLE PLAQUE

Align the two screw holes in plaque back with handlebar holes. Fasten with two (2) 5/8" screws. DO NOT OVERTIGHTEN. Position face plaque onto back, align holes and attach with two (2) 1/2" blunt screws, as shown. DO NOT OVERTIGHTEN.

IMPORTANT NOTICE

PARENTS: PLEASE MAKE PERIODIC INSPECTIONS OF ALL POWER CYCLE® HARDWARE TO ENSURE THAT IT IS SECURE.

STEP 10. DECAL INSTRUCTIONS

NOTE: Thoroughly wipe decal areas with clean dry cloth before applying decals.

Using decal sheet, remove decals one at a time and apply to appropriate positions on Power Cycle as shown on diagram. Make sure all decals are positioned on cycle as shown.

IMPORTANT

DECALS HAVE QUICK SETTING ADHESIVE, BE SURE OF POSITION BEFORE APPLYING—DECAL CANNOT BE LIFTED AFTER SETTING.
