TO CREATE A SMALL SOLDIERS SCENE...

It is recommended that you create your scene in this order:

- 1.** Assemble the soldier.
- 2.** Paint the soldier and base.
- 3.** After the paint is dry, fit the soldier onto the base.

To Assemble...

Character Parts:

Insert tip of post into hole and twist clockwise while pushing parts together. Continue to twist until the post is fully inserted in the hole.

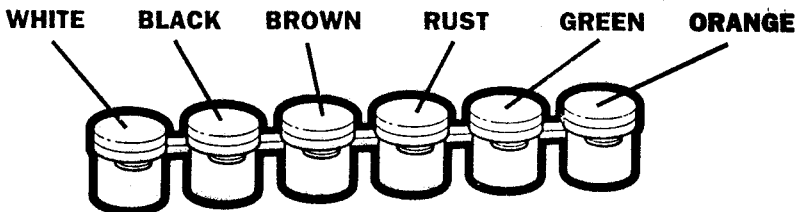

Accessories:

Press post on accessory into hole in figure.

Painting Tips:

- Be sure to protect your clothing with an apron, and your work area with old newspapers.
- Paint will not wash off once it has dried. Paint spills and spatters should be wiped immediately with a damp paper towel.
- When choosing colors to paint your scene, you may refer to the photo on the front of the package. Of course, you can paint your scene using any colors you wish.
- Be sure you have a cup of water handy for rinsing the brush and painting.
- Use a separate container to mix paints.
- To add textures and special effects to your scenes, use a cotton ball or dry paintbrush to blot or dab paint. A cotton ball can also be used to apply or remove paint.
- Paints can be mixed to create a variety of colors. For example, mixing black and white will produce gray.
